

NEW 4GHz Digital Phosphor Oscilloscope

Bandwidth	100MHz	200MHz		500MHz		1GHz			2.5GHz	4GHz
Channels	4	2	4	4	4 Analog + 16 Digital	4	4 Analog + 16 Digital	4	4	4
Warranty	10 Years	10 Years		3 Years		3 Years			3 Years	3 Years
Model No	TDS2014C	TDS2022C	TDS2024C	TDS3054C	MSO4054B	DPO4104B	MSO4104B	DPO5104	DPO7254C	DPO70404C
DGS&D Item No	10	11	12	15	84	17	85	18	19	20
DGS&D Price*	₹58,862	₹90,000	₹1,20,000	₹4,90,450	₹7,72,000	₹7,00,300	₹9,20,300	₹10,34,000	₹15,32,000	₹25,52,500

TDS2000 Series

Digital Storage Oscilloscopes

- Bright color display
- USB PC connectivity
- Dedicated front-panel controls
- Digital real-time sampling
- Waveform limit testing

TDS3054C

Digital Storage Oscilloscopes

- Digital Real Time Sampling
- Front-panel USB host port
- 25 Automated Measurements
- Digital phosphor display
- Advanced Triggering

MSO/DPO4000B Series

Mixed Signal Oscilloscopes

- Digital phosphor display
- Wave Inspector® controls
- Parallel bus triggering & analysis
- 42 Automated Measurements and FFT analysis
- MagniVu® 60.6ps timing resolution on digital channels
- Embedded Serial Triggering and Analysis (I2C, SPI, CAN, LIN)

DPO5000 Series

Digital Phosphor Oscilloscopes

- FastAcq™ with Digital Phosphor display
- Wave Inspector® front panel navigation controls
- Longest Record Length of 50M as standard
- Visual triggering to enhance scope's hardware capabilities

DPO7000 Series

Digital Phosphor Oscilloscopes

- FastAcq™ with Digital Phosphor display
- Pinpoint® triggering
- Up to 40 GS/s sample rate
- 53 automated measurements custom MATLAB and .NET plug-ins

DPO70000 Series

Digital Phosphor Oscilloscopes

- FastAcq™ delivers the industry's highest waveform capture rate
- Superior signal integrity and excellent signal-to-noise ratio
- Pinpoint® triggering and Visual Trigger combine to provide the most full-featured triggering system available
- DPOJET essentials for jitter measurements and eye diagram analysis.

Please refer the rate contract number in all your correspondences and while placing an order
