\*Designed and manufactured by ABCO\*

Shown above - ABCO 23 with windbreak

### Advantages of Aluminum Construction:

- High strength to weight ratio particularly suited for high speed applications
- High impact resistance, tough, very durable, particularly well suited for commercial applications
- Does not rot, delaminate, chip, soak water
- Does not support combustion
- Minimal upkeep and maintenance requirements
- Painting required only for antifouling or cosmetics
- Relative ease of repair
- Relative ease of customization
- Certified welding to Canadian Welding Bureau CSA W47.2 for aluminum
- Manufactured in accordance with ABCO's documented Quality Assurance System

Specifications subject to change without notice. July/13
