ACK Technologies Inc. 440 West Julian Street San Jose, CA 95110

Attention:

Mr. Mike Akatiff, President ACK Technologies Inc.

Subject:

Approval of ACK Technologies Inc. Emergency Locator Transmitter (ELT)

Model E-04

Reference: ACK Technologies Inc. Letter to Transport Canada Civil Aviation (TCCA)

Dated July 28, 2009 (RDIMS 5141898)

Dear Mr. Akatiff:

This correspondence is in response to the referenced letter whereby ACK Technologies Inc. requested TCCA approval of the Emergency Locator Transmitter (ELT) model E-04.

This letter confirms acceptance by Transport Canada of the ELT model description indicated below that is eligible for installation on Canadian registered aircraft.

Model Number	<u>Reference</u>
E-04	TSO-C126
	TSO-C91a
	TSO-C142a

In order for this ELT to be installed in an aircraft, the requirements of CAR 551.104 must be met and the appropriate installation approval received from Transport Canada.

It is noted that ELTs require a Radio Equipment (RE) approval by Industry Canada (IC) in order to qualify for use in Canada. Accordingly, ACK Technologies Inc. is requested to apply directly to Industry Canada to obtain this RE approval. Please forward proof of the approval by IC to Mr. J.M.J. Levesque at the address shown immediately below. Upon receipt of this evidence, Transport Canada will then include the subject ELT model on the "Approved Emergency Locator Transmitter" list showing the only equipment eligible for installation on Canadian registered aircraft. This list is available at (http://www.tc.gc.ca/CivilAviation/certification/elt.htm).
