

ACTIVE *Boat Wheels*

Make life easier with a set of
Active Boat Wheels
fitted to your small dinghy or tender.

Wheels are fitted permanently to the transom and can be used where ever your boat may go. Ideal for travelling over sand, rocks, boat ramps etc. Ideal for car toppers, yacht tenders and all small craft up to 3.6 metres or 12 feet in length.

Features

- Made entirely of non corrosive metal such as aluminium, stainless steel, nylon and polythene.
- Each wheel is 200mm (8 inches) x 130mm (5 inches) wide. This gives a total of 260mm (10 inches) ground cover, which makes manoeuvring over rough terrain very simple.
- The unique locking handle which simply turns anti-clockwise to unlock and clock-wise to lock the wheel in the up or down position.
- The wheels can be easily raised and lowered from within the boat.
- Recommended maximum load per wheel is 125 kg.
