

Scene Lights & Power Equipment

Akron Brass, one of the world's largest and most innovative producers of emergency response and scene lighting equipment, enjoys an excellent reputation for the development and manufacture of quality products. Akron Brass' Extenda-Lite® lighting and electrical distribution equipment is ideal for those emergency scenes or incidents where quick efficient deployment of light and power is critical to enabling a safe working area for firefighters and rescue personnel.

Generator

Providing superior scene lighting and power in every situation, Akron Brass' lighting and electrical distribution equipment is designed to withstand the rigors demanded by today's emergency services. Akron's products are manufactured using the highest quality materials, and workmanship and include:

- **Extenda-Lite®** apparatus mounted, and portable scene lights;
- **The Cord Reel** the ultimate tool for managing portable power cords enabling fast easy deployment and retraction available in live and non-live configurations.
- **The Junction Box** a must have piece of equipment providing easy distribution of power for all your electrical needs on the emergency incident.
- **Generator Light Kits** a lightweight generator with an adjustable light head in a compact, portable package, ideal when both power and lighting are needed in locations far from the emergency vehicle or apparatus.
- **Yamaha Generators** delivering an unbeatable combination of power and performance... all in a quiet, compact design.
