- 3095 In-Line Foam Eductors
- 3125 In-Line Foam Eductors
- 3250 In-Line Foam Eductors
- 4470 AkroFoam Nozzle
- 60 Floor Squeegee
- AP-SK Adapt-a-Pole™ Salvage Kit

STYLE 3443
Mercury™ Quick Attack Monitor
Shown with Style 4447 Mercury Nozzle

The **Mercury™** allows for completely un-manned operation. Combined with a fog nozzle, these units can be deployed directly off existing fire hydrants or with apparatus for rapid mass decon/wash-down without the need of tents. The hefty flow allows for more area to be covered during a deployment.

STYLE 911
Ozzie™ Monitor
Shown with Turbojet® Tip

Akron **Ozzie Oscillating Monitors** have powerful sweeping water streams for haz-mat, protecting exposures and decontamination. Its unique water driven motor sweeps the outlet back and forth in a smooth, wave-like motion to provide washdown and protection while unmanned.

DECONTAMINATION PRODUCTS

Hand Line Wash Down:

Adjustable spray handline nozzles provide an effective means of decontamination/wash-down of personnel, equipment, and structures. They come in a variety of sizes and configurations to meet your specific needs – Turbojet, SaberJet, and Assault nozzles.

**STYLE 1532
SaberJet™**

SABERJET NOZZLES

The SaberJet line of nozzles is a multi-purpose nozzle that combines a choice of solid bore tips and an adjustable spray stream nozzle. They come in a variety of tips, sizes, and configurations for 1", 1 1/2", 1 3/4", and 2 1/2" hoses. They have a choice of solid bore tips from 3/8" up to 1 1/8" for reach and penetration and a choice of spray flows of 60, 95, or 135 gpm. The adjustable spray stream goes from a narrow 25° to a wide 120° spray for excellent stream breakup and coverage.

SINGLE SHUTOFF SABERJET NOZZLES (SSO)

- 1532 Mid-Range SaberJet SSO Nozzle
- 1533 Mid-Range SaberJet SSO Nozzle with Pistol Grip
- 1535 2 1/2" SaberJet SSO Nozzle
- 1536 2 1/2" SaberJet SSO Nozzle with Pistol Grip

DUAL SHUTOFF SABERJET NOZZLES (DSO)

- 1512 1" SaberJet Nozzle DSO with Pistol Grip
- 1513 1" SaberJet DSO Nozzle
- 1515 1 1/2" SaberJet DSO Nozzle
- 1520 1 1/2" SaberJet DSO Nozzle with Pistol Grip
- 1522 Mid-Range SaberJet DSO Nozzle
- 1523 Mid-Range SaberJet DSO Nozzle with Pistol Grip
- 1525 2 1/2" SaberJet DSO Nozzle
- 1526 2 1/2" SaberJet DSO Nozzle with Pistol Grip
- 1527 2 1/2" SaberJet DSO Nozzle
- 1528 2 1/2" SaberJet DSO Nozzle with Pistol Grip

**STYLE 4820E
Assault™**

ASSAULT NOZZLES

The Assault line of nozzles is a fixed flow nozzle that provides good streams in a simple durable design. They come in a variety of flows, pressures, sizes, and configurations for 1", 1 1/2", 1 3/4", and 2 1/2" hoses. They flow rates range from 13 to 350 gpm in a choice of 75 and 100 psi pressure, and their stream can be adjusted from a straight stream, for reach and penetration, to a wide 110° spray pattern for excellent stream breakup and coverage.

- 4815E 1 1/2" Electrical Assault Nozzle with Spinning Teeth
- 4820E 1 1/2" Electrical Assault Nozzle with Pistol Grip and Spinning Teeth

**STYLE 1715E
TurboJet®**

TURBOJET NOZZLES

The Turbojet line of nozzles is an adjustable flow nozzle that gives you the flexibility to adjust your flow to meet the specific situation. They come in a variety of flows, sizes, and configurations for 1", 1 1/2", 1 3/4", and 2 1/2" hoses. Their flow rates range from a low 13 gallons per minute (gpm) to a high 250 gpm, and their stream can be adjusted from a straight stream, for reach and penetration, to a wide 120° spray pattern for excellent stream breakup and coverage.

- 1715E 1 1/2" Electrical Turbojet Nozzle
- 1720E 1 1/2" Electrical Turbojet Nozzle with Pistol Grip

REMOTE
CONTROLLED
SYSTEMS**

Mobile, or permanently mounted monitors provide quick, reliable means of wash-down, decontamination, non-lethal defense and crowd control.

Our permanently and apparatus mounted monitors, or turrets allow a wide variety of choices in wash-down, protection, and defense of fixed and mobile assets. With features like oscillation or remote operations and the ability to inject pepper spray for defense and crowd control. With a variety of flows (up to 5,000 GPM) these units offer great flexibility for developing and designing to meet your applications.

INCIDENT COMMAND, RESCUE, AND INVESTIGATION

Akron Brass electrical equipment and lighting options can help establish scene power, illumination, and security for any incident or situation.

EXTENDA-LITE® PORTABLE LIGHTS

Akron Brass' Extenda-Lite's are designed to withstand the rigors demanded by emergency services, providing superior lighting in every situation. Akron's lights are manufactured using the highest quality materials, and workmanship.

EXTENDA-POD™

Heavy-duty tripods engineered for maximum stability and durability while providing fully adjustable scene lighting from 6-11' in height.

PL-SERIES

Heavy-Duty Portable Hand Lights designed to provide effective portable lighting where you need it.

GENERATOR LIGHT KITS

A self-contained power and lighting unit that can help establish scene illumination and security without the need of apparatus support. These units are small, self-contained, and designed to fit in tight locations freeing up valuable compartment space, or used in command vehicles for quick deployment. They also allow for flexibility in staffing enabling inspectors and investigators to operate their electrical and lighting needs in remote locations without apparatus support.

CORD REELS

Akron Brass Cord Reels are the ultimate in managing portable power cords. The Cord Reels allow for fast easy deployment and retraction of extension cords without the hassle of twisting or knotting. Akron Cord Reels are available in Live and Non-Live configurations.

ELECTRICAL JUNCTION BOXES

The Akron Brass Junction Box is a must have on every apparatus as it provides easy distribution of power for all your electrical needs on the fire ground. Our Junction Box's durable design utilizes a heavy duty powder coated aluminum housing with a large integral handle, and internally backlit faceplates. This makes the Junction Box easy to carry with excellent visibility and allows easy electrical connection in the darkest conditions. Akron Brass Junction Boxes can be custom configured to meet your exact needs. Plug and receptacles available in any NEMA approved configuration.
