FIREFIGHTING EQUIPMENT

## NEW! BLITZ TIP

### Akron's New Blitz Tip

The Blitz Tip was developed to provide an increased flow with a tighter stream at low pressure.

The new Akron Tip can be used in a variety of applications, from a low-pressure attack line, which prevents firefighter fatigue, to a hard hitting blitz line used in heavy fire attacks. This Tip is capable of working with most CAFS systems and can be utilized in a stationary position to delivery over 400 gpm quickly while master stream devices are deployed.

#### PYROLITE SHUTOFF WITH PISTOL GRIP AND STRAIGHT TIP

##### 1446 Shutoff with Pistol Grip and Straight Tip

Combination of Style 2126 Ball Shutoff with Pistol Grip and Style 1499 Straight Tip
