ALBIS PLASTIC and QUIMICOS & PLASTICOS present products at FEIPLASTIC 2015

- **FEIPLASTIC 2015, Sao Paulo, Parque Anhembi, Booth F999**
- **Own brand compounds for automotive and E+E segments**

Hamburg, 21. April 2014. ALBIS PLASTICS Corporation (USA) and QUIMICOS & PLASTICOS are sharing a booth at the FEIPLASTIC 2015 in Sao Paulo. "Q&P is a very reliable marketing partner with whom we cooperate in Brazil due to their complementary line of products and their activities on target markets such as automotive, E+E and Packaging as well as their deep understanding of technical plastics. Moreover Q&P offers wide geographical coverage in South America, excellent logistics and exceptional technical support for customers", explained Mike Gray, President of ALBIS PLASTICS CORPORATION, describing the partnership with this Brazilian distributor. Since January 1, 2014 Q&P has taken over the ALBIS PLASTICS line of products in this region.

In Parque Anhembi, Booth F999, ALBIS PLASTICS CORPORATION, an affiliate of ALBIS PLASTIC GmbH, and the Brazilian cooperation partner will display products and solutions for the automotive, E+E, packaging and toy sectors. The spotlight will center on ALBIS's own brand compounds. In addition to the Tedur[®], ALCOM[®] and SHELFPLUS O₂[®] product lines, the focus will be on the compound solution ALTECH NXT PP[®], which the company has developed especially for the automotive sector. This polypropylene based compound offers an interesting alternative to polyamide based compounds in terms of performance, price, availability and weight. ALTECH NXT PP[®] closes the gap between standard and technical plastics. This allows a PP glass fiber material with particularly high temperature resistance to be used as a substitute for PA6 GF, PA6 glass fiber mineral or even PP LGF.

The FEIPLASTIC is held every two years and is one of Latin America's most important exhibitions for the plastics industry. Approximately 1,400 national and international exhibitors from various sectors such as machine construction, equipment and accessories, tools and dies as well as raw plastic

materials will present their products to nearly 70,000 visitors over an exhibition area of 85,000 sq. m.

ALBIS PLASTIC profile in brief

ALBIS PLASTIC is one of the global operating companies in the distribution and compounding of technical thermoplastics. In addition to the product portfolio of well-known plastic manufacturers, ALBIS offers the plastic processing industry a diverse product range of high performance plastics, compound solutions and masterbatches. In the 2014 business year, the ALBIS Group, which has approximately 1024 employees, achieved sales of 876 million euros. With 17 subsidiaries, the Hamburg-based company is represented in many European countries as well as in North Africa, the Far East and North America. ALBIS manufactures plastic compounds and masterbatches at three locations in Europe – Hamburg (Germany), Zülpich (Germany) and Manchester (United Kingdom), as well as in the new production site at Changshu, China.
