ALBIS PLASTIC exhibits at FAKUMA 2014

- **ALBIS will be presenting its own brands and distribution portfolio**
- **FAKUMA, Friedrichshafen, October 14th – 18th, Hall A3, Stand A3-3105**

Hamburg, 4th September 2014. ALBIS PLASTIC GmbH, global specialist for the distribution and compounding of technical thermoplasts located in Hamburg, will be presenting itself at FAKUMA 2014.

In the period from October 14th to 18th, 2014, the international plastics industry will meet for the 23rd time in Friedrichshafen to present new developments and trends at the numerous tradeshow booths, forums, workshops and special shows. ALBIS PLASTIC will also be represented once again. On an area of 300 m² in Hall A3, Stand A3-3105, ALBIS will demonstrate its diversified product portfolio of internal and distribution brands, as well as interesting application examples.

"For us, FAKUMA represents the key cross-industry meeting place for suppliers and customers in the Central Europe sales region. Here, we have the opportunity to extensively exchange ideas with our customers and partners about existing and future projects. In the process, both sides benefit from the strong presence of the account manager, since both sales issues as well as technical approaches can always be discussed," says Kay Bringmann, Regional Sales Director Central Region at ALBIS PLASTIC.

Dr. Jörg Schottek, CEO of ALBIS PLASTIC, adds: "A FAKUMA without ALBIS is hardly conceivable. After all, we were among the very first exhibitors in the history of the tradeshow. FAKUMA offers a great opportunity to launch intercontinental projects with customers and suppliers from our central sales region. This is important, because ALBIS accompanies its European customers worldwide. We have also expanded our presence in the Asian market thanks to the production facility in Changshu, China, along with developing the far-reaching distribution network and connected technical support. However, we will also invest in our global presence in the future in order to offer our customers our service at the usual quality level. This is what helps to distinguish ALBIS.

ALBIS PLASTIC profile in brief

ALBIS PLASTIC is one of the global operating companies in the distribution and compounding of technical thermoplastics. In addition to the product portfolio of well-known plastic manufacturers, ALBIS offers the plastic processing industry a diverse product range of high performance plastics, compound solutions and masterbatches. In the 2013 business year, the ALBIS Group, which has approximately 1030 employees, achieved sales of 810 million euros. With 17 subsidiaries, the Hamburg-based company is represented in many European countries as well as in North Africa, the Far East and North America. ALBIS manufactures plastic compounds and masterbatches at three locations in Europe – Hamburg (Germany), Zülpich (Germany) and Manchester (United Kingdom), as well as in the new production site at Changshu, China.
