Precision capacitance or RLC bridges				X		X										
Special RLC bridges (for energetics use)									X							
Mega- and Terraohmmeters, Insulation meters						X			X							
Resistance standards and decades						X			X							
Capacitance standards and decades				X		X			X							
Inductance standards and decades						X										
Resistance bridges									X							
Micro-ohmmeters, High speed Res. measurement						X										
Miliohmmeters with high current									X							
Calibration baths/enclosures for Resistance standards							X		X							
Resistance transfer standards (Hamon type)						X										
Precision Voltage Dividers, Inductance Dividers						X			X							
Precision Voltage Meters						X			X							
Programmable AC/DC voltage and current sources						X			X	X		X				
Current shunts						X			X							
Time and Frequency standards (also GPS)															X	
Time & Freq. Standards and distribution (Rb,Cs)															X	X
NTP/PTP servers, Bus level timing, power-over-ethernet															X	
Multimeters, frequency counters (20 GHz)	X									X						
Arbitrary waveform generators	X									X						
Pressure, level and flow sensors, solenoid valves					X											
Multifunctional faultfinding systems	X										X					
Standard Energy meters and calibrators												X				
Precision Power meters and Calibrators									X			X				
Microwave accessories			X													
Microwave Standards and Calibrators			X													
Parameters of enviroment (T, H, P, AV, AF, CO2)								X								
Sound level meters, solarimeters, luxmeters			X			X		X								
Dataloggers			X					X		X						
Voltage, current, power, dataloggers, analyzators			X													
Spectrum and Network Analyzers, Oscilloscope	X										X					
Standard Platinum Thermometers (PRT)		X														
Temperature bridges (readouts)		X							X							
Scanners, switches									X	X						X
Coil testers																
Probes, adapters, cables, connectors, sealing compound													X			
Transformer test systems									X							
Instruments for education purposes	X															
Thermocouples, resistance thermometers		X						X								
Climatic and temperature chambers, dryers, autoclaves							X									
Cesium, Rubidium, Quartz crystals															X	
Modular switching systems (universal)										X					X	X
