BASE Engineering Announces “End of Life” for RCU Handheld (Original Remote Readout ProControl)

December 2, 2014 – Saint John, NB, CANADA.

Please be advised that effective December 31, 2014, BASE Engineering Inc. will cease production of the RCU handheld (original Remote Readout ProControl handheld) for new purchases.

Currently active products under warranty will be eligible for repairs for the lifetime of the warranty (typically 1 year from part purchase date). RCU-DSSD system upgrades are now available - please contact our inside sales and tech support team at 1-800-924-1010 for details.

Our goal is to make the transition from old to new systems as easy as possible for our customers. We appreciate your patience and understanding as we undergo these changes to our product line.
