# Building HVAC components

Belparts is specialized in the development, production and marketing of components for the automation of HVAC-systems in buildings. We design field components that exactly match market needs. Throughout the development process, we ensure functionality, quality and reliability.

Belparts produces field components for all areas of HVAC, whether production, distribution, or terminal control of heating and cooling, as well as ventilation. Whatever the HVAC-application, we have it covered.

Our field components are designed to be smoothly integrated with any Building Management System (BMS), Direct Digital Controller (DDC), Programmable Logic Controller (PLC), and Supervisory Control and Data Acquisition (SCADA) system.

## A leading player for more than two decades

Belparts was established in 1987 by professionals from the HVAC-industry. Since then, we have developed a reputation for intelligent product design and reliable solutions. Our company has enjoyed a healthy success ever since its foundation.

## Market driven innovation

We constantly strive for product and system optimizations. Our engineers incorporate the latest proven technological developments into the design of new HVAC-components and understand how to combine high quality with product affordability.

## Shared competency and values

The Belparts staff shares a common passion for technology, product design, quality, and HVAC-applications. Each of our team members is both customer and results-oriented, and is trained to think 'innovation'. Integrity and responsibility are prerequisites for every employee.

## energetx

Belparts produces a broad range of components that save costs at every single point in your HVAC-system. By selecting the optimal component for each individual situation, considerable amounts of energy can be saved. Our **energetx**-range of products includes control valves, rotating valves, valve and air damper actuators, terminal control valves, and sensors.

## dynamx

Based on our revolutionary Dynamic Flow Networking (DFN) concept, our **dynamx**-valves adjust the flow of energy exactly to the desired conditions. This ensures that only the exact amount of energy is delivered at the right place and at the right time. The result is optimal comfort and reduced energy costs.

## Resistance tables

The Belparts product range offers a complete range of sensors suitable for comfort applications in buildings like heating, ventilation and air-conditioning installations.

All standard passive sensors are provided with a platina Pt1000 sensing element. At the same time other sensing elements can be delivered depending on your choice: Pt 100, NTC 10kΩ, NTC 20kΩ, Ni 1000 DIN, Ni 1000Tk5000, NTC 10kΩ, etc.

## Differential pressure sensors for air

SP-A..

- Active differential pressure sensors
- Analog output: 0..10Vdc or 4..20mA
- Connection kit included in delivery
- Active sensors U<sub>v</sub>: AC/DC 24 Volt
- Measuring range adjustable
- Optional with LCD display

Air <sup>1)</sup>	TYPE	0..10Vdc	4..20mA	LCD		Range $\Delta p$ <sup>4)</sup>	0-point calibration	Price €/pc
	SP-A94	●				±100Pa	automatic	209,-

	SP-A96	●	●		<sup>3)</sup>	0..2.000 Pa	automatic	366,-
	SP-A96-LCD	●	●	●	<sup>3)</sup>	0..4.000 Pa 0..5.000 Pa 0..7.000 Pa 0..10.000 Pa 0..15.000 Pa 0..20.000 Pa 0..25.000 Pa	automatic	424,-

<sup>1)</sup> the analog output can be set either as linear to the differential pressure or flow proportional

<sup>2)</sup> for example for cleanroom applications

<sup>3)</sup> output signal 0..10Vdc or 4..20mA: adjustable via jumper

<sup>4)</sup> adjustable

## Differential pressure sensors for water

SP-W92

- Active differential pressure sensors
- Analog output: 0..10Vdc or 4..20mA
- Process connection: 8mm copper pipe
- Active sensors U<sub>v</sub>: AC/DC 24 Volt
- Measuring range adjustable
- Optional with LCD display

Water	TYPE	0..10Vdc	4..20mA	LCD		Range $\Delta p$ <sup>2)</sup>	Static pressure	Price €/st
	SP-W92-002	●	●		<sup>1)</sup>	0..1,0bar or	16bar	497,-
	SP-W92-002-LCD	●	●	●	<sup>1)</sup>	0..2,5bar	16bar	555,-

Water	TYPE					Range $\Delta p$ <sup>2)</sup>	Static pressure	Price €/st
	SP-W92-006	●	●		<sup>1)</sup>	0..4,0bar or	16bar	497,-
	SP-W92-006-LCD	●	●	●	<sup>1)</sup>	0..6,0bar	16bar	555,-

<sup>1)</sup> output signal 0..10Vdc or 4..20mA: adjustable via jumper

<sup>2)</sup> adjustable
