

# Case Study

## Cape Dara Resort, Pattaya Thailand

### Key Objective

- To build a sound system that can be used to play music around the compound, as well as to make public announcements
- To ensure safety and security around the compound

### Bosch VS Competitor

- Management is clearly aware of the brand Bosch, and believes that it's sound system would fit perfectly with the hotel, in terms of reputation and product quality.

### Solution

- Installation of a complete PLENA solution that included, amplifiers, ceiling speakers, sound projectors, horn and cabinet loudspeakers.

### Customer Benefits

- Prompt and professional services
- Producing excellent voice control and speech reproduction
- Creating a relaxing ambience for all guests
- Enables the management to address the public quickly in times of emergencies and allows guests to respond swiftly to announcements
