

# Case Study

## Willoughby Council, Australia

### Key Objectives

- A superior conference system to accommodate more frequent, efficient and effective council meetings

### Key Challenges

- To simplify the existing system that comprised of a mixture of various components
- To deliver optimum sound with an easy-to-use integrated system

### Solution

- Installation of the Bosch PLENA matrix multi-zone DSP unit that incorporates all zones and audio inputs into one

### Customer benefits

- Increased ease of use and integration of operations
- Optimum audio performance
- Execution of uninterrupted conferences and discussions
