

Dostyk Plaza Shopping Mall

Dostyk Plaza Shopping Mall, Almaty, Kazakhstan

Objectives

- Reliable fire alarm and voice evacuation system solution
- Control and management of all important subsystems
- User-friendly monitoring

Solution

- Two networked Bosch fire panels with more than 3000 fire detectors
- Digital public address and voice evacuation system based on Praesideo includes over 1000 loudspeakers in 40 zones
- Building Integration System for central management; control and easy monitoring of the used subsystems

Customer benefits

- Comprehensive and integrated security solution with high detection accuracy and flexibility
- Reduces response time in case of an event through the use of interactive graphical map of the facility
- Event log, enabling the center management to analyze the quality of the operator's work
