Why Choose CableWholesale?

CableWholesale sells to thousands of customers daily in the United States and around the world. We offer a Lifetime Warranty on our entire product base and take pride in our top-notch customer service and technical staff who eat, live and breathe cables.

Dual East & West Coast Shipping

CableWholesale operates shipping facilities in both California and Georgia to quickly service orders throughout the United States and beyond while lowering shipping costs to you.

Lifetime Warranty

CableWholesale offers a lifetime warranty on all of our products. If a product stops working, simply give us a call or email us. If our technical support team isn't able to find a solution for you, we'll be happy to exchange the item for a new one, even if multiple years have passed. (Some restrictions apply, see website for details)

Quality Without Compromise

We triple-check all of our products to ensure they meet our standards. We use pure copper in our cables, not cheaper, less-effective alternatives. We also ship you what you order; no substitutions of lesser-quality products. And you get all this quality and attention at very competitive prices. This is one of the major things that differentiates us from the competition and allows us to offer a lifetime warranty on all of our products.

Large In-Stock Inventory On Popular Items

At present, CableWholesale offers over 3,600 products available via our website or by telephone. This selection includes: network cables, Ethernet cables, Cat 5e cables, Cat 6 & Cat 6a cables, HDMI cables, SVGA cables, DVI cables, USB cables, Firewire cables, security cables, fire alarm cables, audio cables, digital video cables, computer cables, adapters, converters and specialized products to fit every need, all in-stock every day.

Custom Cable Capabilities

We have created hundreds of custom cables for our customers, from special pin outs to data cables specifically for one type of hardware. Some basic variations on standard products like different lengths or colors, all the way to specialty cables for Automotive, Medical, Marine and High Voltage are all possible.

Free Technical Support

At CableWholesale, we know how difficult it can be to select from a wide variety of available cable types. That's why we have a Support Team that is ready to answer your questions by email, chat or phone. We also have our online support center to help you make the right cable decisions.

Customer Education

As a service to our customers, CableWholesale has begun a monthly series of informative technical articles, each one focusing on a particular technology. Our goal is to help our customers get better acquainted with the often confusing cables, connectors, and standards to be encountered out there.

Corporate Accounts

Our corporate accounts have individually assigned sales representatives, special volume pricing, 30 Day net terms (some restrictions apply) and blind drop-ships that can ship directly to your customer. CableWholesale is ready to be your only corporate cable vendor!

Terms & Conditions

How to Order

Orders are accepted through our website or via our toll-free phone number, 888-212-8295.

Ordering with Purchase Orders

We accept purchase orders from schools, government institutions, and companies who have applied and been accepted for a Corporate Account. We do not accept purchase orders from companies outside of the United States. We require all net term accounts to have a minimum sales per year of \$5,000. (We do ask that customers place their first order via credit card). CableWholesale.com does not grant terms above Net 30. Purchase orders are accepted via fax at 925-455-0808, or via e-mail to sales@cablewholesale.com. We do not accept informal or purely verbal purchase orders. Purchase orders that are received by 3:30 PM PST can generally be shipped the same day.

Shipping

Orders Placed on our website before 4:00pm PST can usually be shipped the same day. We offer a variety of shipping methods including UPS, FedEx, and the United States Postal Service (USPS). Shipping costs are calculated based on your address and the weight of your order. When you place an order, the various shipping options and their costs will be displayed after you enter your address information into the fields provided and click "Continue to Step 2."

Returned Goods

Returns must comply with the return procedure set forth below, and all returned items must be in new condition, including the original box, packaging, manuals and accessories. In the event goods supplied by CableWholesale.com, Inc. are considered defective, we must be notified within thirty days. We can then issue a Return Materials Authorization (RMA) number. We do not accept returned goods without an RMA number. Refusal of shipment when a package is delivered does not constitute a request for an RMA. Once an RMA has been issued, the customer has 14 days to return the package to us. Once the item(s) have been received, the customer can expect a credit onto their card, or a revised invoice, within fourteen days. We do not issue store credit. For items we prove defective upon receipt, errors in shipment, or exchange returns, no restock fee is charged. In all other cases, a 20% restock fee is subtracted from the amount credited to the customer's credit card. We reserve the right to inspect all defective and returned merchandise before an exchange or credit will be made. If we made a "good faith" no charge exchange and you do not ship back the defective item within 10 days, you will be charged for the original and the replacement item. We can credit shipping costs only in the event of an internal error in shipping. If you are shipping something back to us, as a return/exchange you pay for return shipping. We do not have "free return shipping" policy. We are not responsible for items that do not get back to us. All returns over \$10,000. must be reviewed before they can be approved. Due to our inability to resell returned custom cables, we cannot accept returns on custom or special-order items.

Missing Items

If parts from your order are missing, you have to notify us within 7 days of receiving your order.

Warranty

CableWholesale.com's warranty covers only the replacement or repair of the original product. We shall not be liable for any damages arising out of or in connection with use of any products sold herein except as may otherwise be accorded by law.

Payment

CableWholesale.com normally accepts payment by Visa, MasterCard, Discover and American Express. We do not normally accept COD payment. Cashiers checks and money orders are also accepted, as is cash for will-call orders. Payment is due in full as stated on the invoice. For purchase orders, late fees of 2.5% of the unpaid balance will be charged on delinquent accounts commencing after the first billing cycle from the date of the invoice if CableWholesale.com, Inc. deems the situation requires such action. Any costs of collections, including attorney fees, will be added to invoice. For international orders, we accept payment by credit card or wire transfer. CableWholesale.com charges a \$24.00 wire transfer fee for each transaction of this sort. CableWholesale.com cannot ship international orders without prepayment.

Returned Checks

If the Buyer's check is returned to CableWholesale.com, Inc. for insufficient funds, because payment has been stopped, or for any other reasons, a specific charge of \$15.00 will be assessed for the handling of that check regardless of the reason for handling or processing. Two or more returned checks within a 60-day period will cause the account to revert to prepaid/credit card basis.

Customer Privacy

Cablewholesale.com does not rent, sell or otherwise forward your name to other companies. We collect only the information necessary to keep the customer well-informed of the status of his or her order. For further information, please see our Privacy Policy.

In Case of Fraud

In the interest of preventing Internet fraud, CableWholesale.com reserves the right to refuse any order whose billing address does not match the address on the credit card, or is in any other way suspicious. CableWholesale.com reports all fraudulent orders.

Sample Merchandise

In the event that your company requires a sample, we can process an order for one or two items, with payment from the customer. When the customer then places their subsequent order, the amount of the sample can be deducted from the said order.

Prices and Specifications

Prices, specifications, and availability of products are subject to change without notice. Due to the changing nature of the computer market, and because of the technical differences in the equipment of our customers, product descriptions may not reflect current technical information, and we cannot be responsible for photographic differences in product size, shape and color.

Verification of Order

CableWholesale.com orders generate an automatic confirmation e-mail, but the receipt of a confirmation only means that we have received your order, and does not constitute an offer to sell. We may change our pricing, product description or specifications after any confirmation e-mail, but prior to shipment, due to errors, changing market conditions, product discontinuation or unavailability, typographical errors, or any other reason. While it is the customer's responsibility to cancel their own orders, we reserve the right to limit the quantity of any item sold, or prohibit a sale altogether.
