

# Objet260 Dental Selection™

## The most versatile dental 3D printer on the market.

The Objet260 Dental Selection is the ultimate dental 3D printer to run on triple-jetting technology, which is PolyJet™ 3D printing at its most advanced. It delivers:

- **Lifelike color, texture and detail:** 3D print rigid and gum-like features in a range of realistic tooth and gum shades.
- **Many materials in one job:** Build multi-material dental models in one piece, or complete several small models from diverse materials in one unattended job.
- **Efficient workflow:** Maximize uptime by running your three most-used materials simultaneously.

## Unmatched model realism.

The Objet260 Dental Selection supports all Stratasys dental materials (VeroDent™, VeroDentPlus™, Clear Bio-compatible and VeroGlaze™), plus an array of dental specific palettes to produce lifelike colors and textures for teeth and gums.

### Create:

- Stone models for implant testing with gum-like texture for accurate functional evaluation
- Models with gum-like features or a mix of rigid and gum-like components
- Jaw models printed directly from CBCT scan data with high-definition tooth, root and nerve canal anatomy rendered in contrasting materials

# Objet260 Dental Selection

Easily integrate the Objet260 Dental Selection into your dental or orthodontic lab experience:

## Increase productivity and capacity.

- Dramatically cut production time with a 3D printer that can multi-task by building diverse models on one tray and managing multiple materials at once
- Increase unattended run time with less material changeovers
- Support all open format color intraoral scanners

## Realistic accuracy and detail.

- Unprecedented realism in look and feel with lifelike gum textures for precise evaluation
- Wide range of shades for customized color matching

## Easy to use.

- No digital design knowledge required
- Clean, quiet process

## Environmentally safe dental materials.

- Build models with easy-to-handle materials that pose no biohazard safety or disposal concerns

## Get the most from digital dentistry.

The Objet260 Dental Selection creates models with true-to-life look and feel in your dental or orthodontic lab. Create a competitive point of difference by using a digitized workflow to generate faster turnaround and greater production capacity.

Operate your business more efficiently, effectively and profitably while also increasing customer satisfaction with the Objet260 Dental Selection.

## Product Specifications

### Model Materials:

Clear Bio-compatible (MED610)  
VeroGlaze (MED620)  
VeroDent (MED670)  
VeroDentPlus (MED690)  
VeroWhite™  
VeroMagenta™  
TangoPlus™  
TangoBlackPlus™  
Range of gum-like Digital Materials  
Digital Materials in a range of natural tooth shades

### Support Material:

SUP705

### Build Size:

255 x 252 x 200 mm (10.0 x 9.9 x 7.9 in)

### Layer Thickness:

Horizontal build layers down to  
16 microns (0.0006 in)

### Workstation Compatibility:

Windows 7 and Windows 8

### Network Connectivity:

LAN – TCP/IP

### Size and Weight:

*Objet260 Dental Selection:*  
870 x 735 x 1200 mm (34.3 x 28.9 x 47.2 in)  
264 kg (582 lbs)

### Material Cabinet:

330 x 1170 x 640 mm (13 x 46.1 x 26.2 in)  
76 kg (168 lbs)

### Power Requirements:

110–240 VAC 50/60 Hz;  
1.5 KW single phase

### Regulatory Compliance:

CE, FCC

### Special Facility Requirements:

Temperature 18°C–25°C  
(64°F–77°F); relative humidity 30–70%  
(non-condensing)
