CARTER BANDSAW BLADES GETTING RAVE REVIEWS

Grand Rapids MI • As the industry leader in products to enhance the productivity of bandsaws, for both the professional and hobbyist markets, Carter Products is constantly looking for ways to improve their product line.

Now, they are pleased to introduce AccuRight™ Bandsaw Blades. This new line is the first to meet the demanding specifications that Carter Products established for a blade with their name on it. AccuRight blades set new standards for durability; smooth, straight cuts; and the ability to shape precise contours.

"We have a well-established track record for products that are not just 'me-too,' but truly add to the precision and productivity of our customers' saws," said Peter Perez, President of Carter Products. "AccuRight blades will cut longer and more accurately than the industry standard – at very reasonable price points."

Customer comments:

"Wow! It is the smoothest running blade imaginable: absolutely quiet with no run-put, neither side to side, nor front to back. There's no comparing it to other blades....Thanks for making a truly precision bandsaw blade. Thanks for doing it RIGHT! "

Ray
Buffalo Fine Woodworking, San Francisco, CA

"Carter Accuright Bandsaw Blades are the best I have ever used, they cut straight and accurate every time."

Larry
Mason, MI

"I recently bought some of your blades at a recent woodworking show and I have been extremely pleased with them! My saw is now a joy to use!"

Larry
Baltimore, MD

AccuRight blades will cut a wide range of hardwoods and softwoods. They feature a hard-flex back design and will fit almost all bandsaws on the market today. They are available in standard lengths from 72"-136" and widths from 1/8"-1 1/4". Custom lengths are available.

Carter Products has been a leading supplier of productivity-enhancing products since 1929. Their range of band saw accessories now includes; guides kits, Stabilizers®, the new ETG™ Electronic Tension Gauge, the Quick Release™, blade tension release, Carter Ultra Blue™ bandsaw tires, Cobra Coil™ springs, and the new Clean Sweep™ particle brush. They also represent the broadest range of line lasers and 2-D laser projection systems in the industry. The innovative Carter Flip-Pod® vacuum part holddown system for CNC manufacturing, precision calibration instruments for widebelt sanding applications, and many other products are also vital parts of the Carter line.
