

Circuit Breaker Sales & Repair, Inc

A Group CBS Company

Circuit Breaker Sales and Repair (CBS&R) is the Gulf Coast's #1-stop shop for low- and medium-voltage power distribution equipment sales, testing & repair, and retrofit upgrades.

From contactors to switchgear, CBS&R has you covered:

Circuit breakers	Switches
Switchgear	Electrical contacts
Transformers	Motor starters and motor control centers
Substations	Vacuum interrupters
Protective relays	...and much more

THE GULF COAST'S #1:

- New product inventory
- Replacement parts provider
- Retrofit, refill, and cost saver
- Advanced shop testing services*

*including magnetron atmospheric condition (MAC) field testing to predict the remaining life of your vacuum interrupters

Circuit Breaker Sales & Repair specializes in the sale and service of low- and medium-voltage power distribution equipment in the Gulf Coast area. We are a one-stop service shop for switchgear, transformers, circuit breakers, protective relay and parts, as well as repair, upgrade, life-extension, and maintenance services.

We have millions of replacement parts, and we can provide you anything from a circuit breaker charging spring to a complete unit substation, either new, surplus, or remanufactured.

Life-extension services are our specialty. By utilizing the latest technologies coupled with our many years of experience and modern shop facilities, we can cost-effectively upgrade your apparatus via retrofit, refill, and matching existing lineups.

As a Group CBS affiliate, we provide you access to the industry's largest inventory of low- and medium-voltage apparatus and parts, plus on-site service and comprehensive shop repair, remanufacturing, and life-extension capabilities.

Circuit Breaker Sales & Repair, Inc
A Group CBS Company

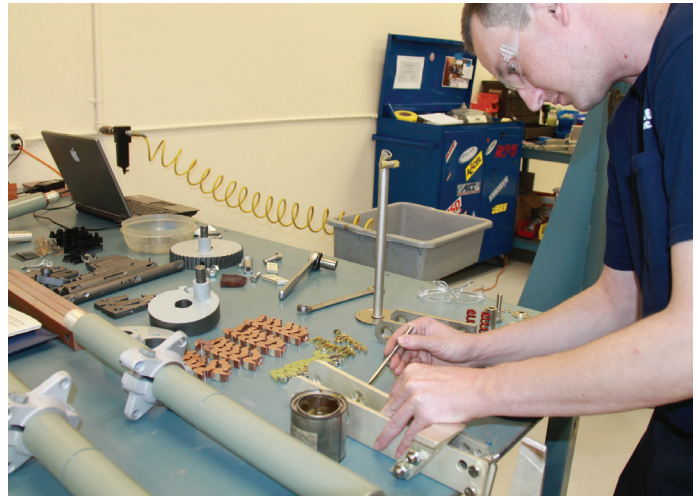

SALES

As a member of Group CBS, CBS&R offers you the industry's largest inventory of **NEW** low- and medium-voltage equipment, **REPLACEMENT PARTS**, and **REMANUFACTURED** electrical equipment to keep your operation running. Have a high-duty-cycle application that is killing your breakers? Ask about our CBS MagVac line of magnetic latching medium-voltage vacuum circuit breakers guaranteed for 5 years or 30,000 operations.

TESTS & REPAIR

CBS&R provides advanced **SHOP TESTING AND REPAIR SERVICES**, including emergency response, for troubleshooting your failed electrical equipment. All repairs are tested using calibrated test sets to original equipment manufacturing (OEM) specifications. CBS&R is the only testing facility on the Gulf Coast to offer magnetron atmospheric condition (MAC) testing in the shop to predict the remaining life of your vacuum-based gear.

RETROFIT & UPGRADES

Maximize the return on your electrical assets through our **UPGRADE, RETROFIT,** and **LIFE-EXTENSION SERVICES**. Improve safety and reliability with the latest solid-state controls and vacuum technology while reusing existing enclosures and ancillary equipment. Need to match an existing, obsolete line-up? It's no problem for CBS&R's engineers.
