

DC-AC INVERTER TRANSFORMERS

FEATURES

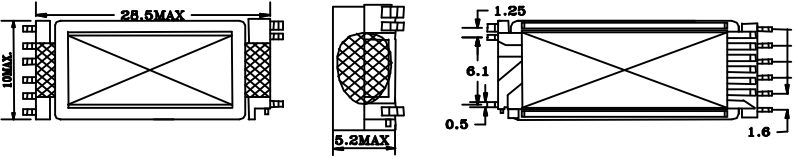

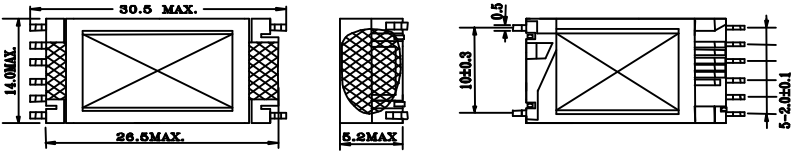

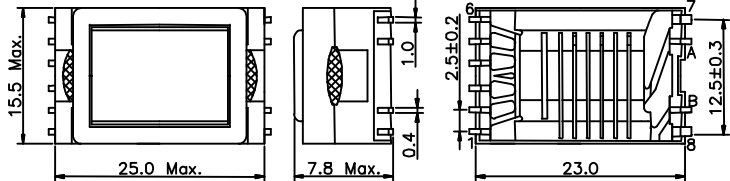

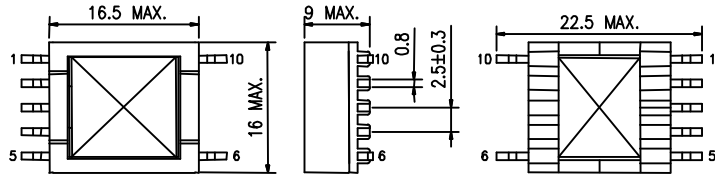

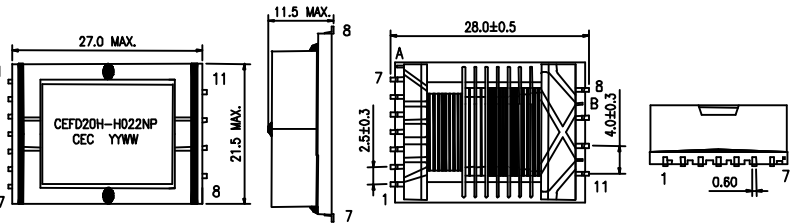

- I Particularly suitable for LCD backlight drive in many applications.
- I A wide range of shapes and dimensions to meet with a variety range of output power requirements.
- I Slim and low profile.

APPLICATIONS

- I Cold cathode fluorescence lamp drive in many applications, LCD TV, notepad, portable DVD, etc.

SPECIFICATIONS

1. Operational frequency --- according to the frequency of your cold cathode fluorescence lamp
2. Max. operating power
3. Strike voltage

Model	Specification	Dimension (mm)
 <p>UI9.8</p>	Max. output power: 4W Max. strike voltage: 1800Vac	
 <p>UI117</p>	Max. output power: 5W Max. strike voltage: 1800Vac	
 <p>UI157</p>	Max. output power: 7W Max. strike voltage: 2000Vac	
 <p>CEFD15</p>	Max. output power: 5W Max. strike voltage: 900Vac	
 <p>EFD20H</p>	Max. output power: 9W Max. strike voltage: 2000Vac	

※Specifications other than the above will be furnished upon request.
