Conflict Materials Statement

Most Desco Industries Inc. products do not contain any Tin, Tantalum, Tungsten or Gold. In regards to the "Conflict Material's Act", Desco Industries Inc. products may or may not contain Tin, Tantalum, Tungsten and Gold, that might be reportable under this act. We are not however aware of their origin.

The term "conflict minerals" refers primarily to Gold, Tin, Tungsten, and Tantalum and their derivatives. Their profits are widely acknowledged to support brutal violence and repression within the Democratic Republic of the Congo (DRC) and neighboring countries. When we are aware of distributors known or suspected of selling such materials, we verify that we make no purchase from those distributors.

The product composition information is to the best of our knowledge and may be based on third party supplier information and/or our knowledge and experience regarding typical substance composition found in materials used in ESD packaging products.

See Desco Industries Inc. limited warranty at <http://descoindustries.com/Warranty.aspx> which states in part: Desco Industries Inc. only obligation shall be to replace such quantity of the product proved to be defective. Desco Industries Inc. shall not be liable for any injury, loss, or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, users shall determine the suitability of the product for their intended use, and users assume all risk and liability whatsoever in connection therewith.
