

RoHS Compliant

Environmental Laws restrict the use of certain hazardous substances. "RoHS: Compliant" addresses the laws transposed from the European Union directive [2002/95/EC](#) known as the RoHS Directive.

The RoHS Compliance of any product so designated is based upon evidence from the producer (manufacturer) that the part number is in compliance with the RoHS Directive. C&H Technology has taken all reasonable steps to confirm producers' statements and other evidence regarding the absence of the restricted substances to support the manufacturers' claim of compliance.

For reference, in compliance with RoHS (EU Directive 2002/95/EC) the maximum concentration values of the restricted substances by weight in any homogenous materials are:

- Cadmium/Cadmium Compounds 0.01%
- Hexavalent Chromium/ Hexavalent Chromium Compounds 0.10%
- Lead/Lead Compounds 0.10%
- Mercury/Mercury Compounds 0.10%
- Polybrominated Biphenyls (PBBs) 0.10
- Polybrominated Biphenylethers (PBDEs) 0.10%
