

How to use the Fiber Performance Specs Tool

Ricardo Díaz | Digital Tools and Technology | April 2015

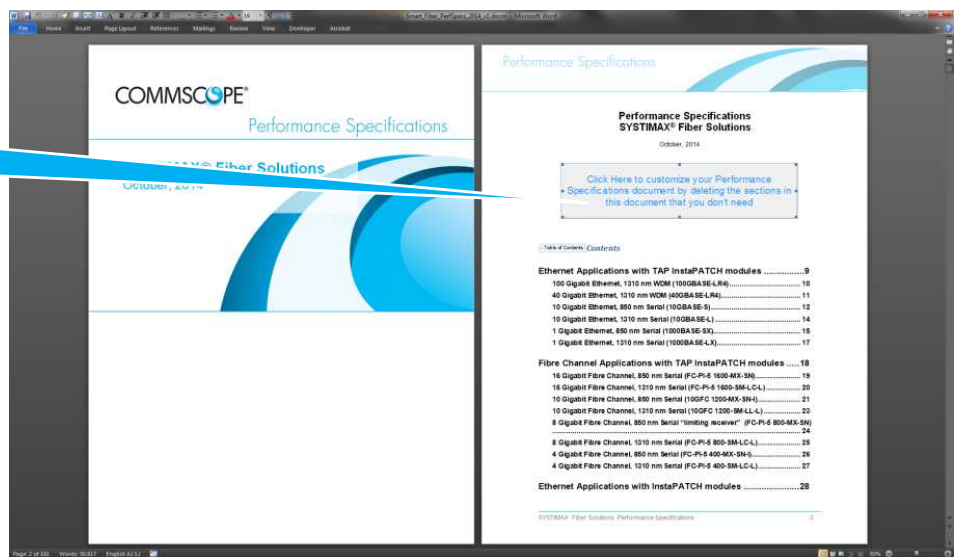

Tailor them to your needs in 5 steps!

COMMScope®

Click here to start filtering

1. Application Families selection

The main form allows the user to select the families of applications (in or out)

PRIVATE AND CONFIDENTIAL © 2014 CommScope, Inc

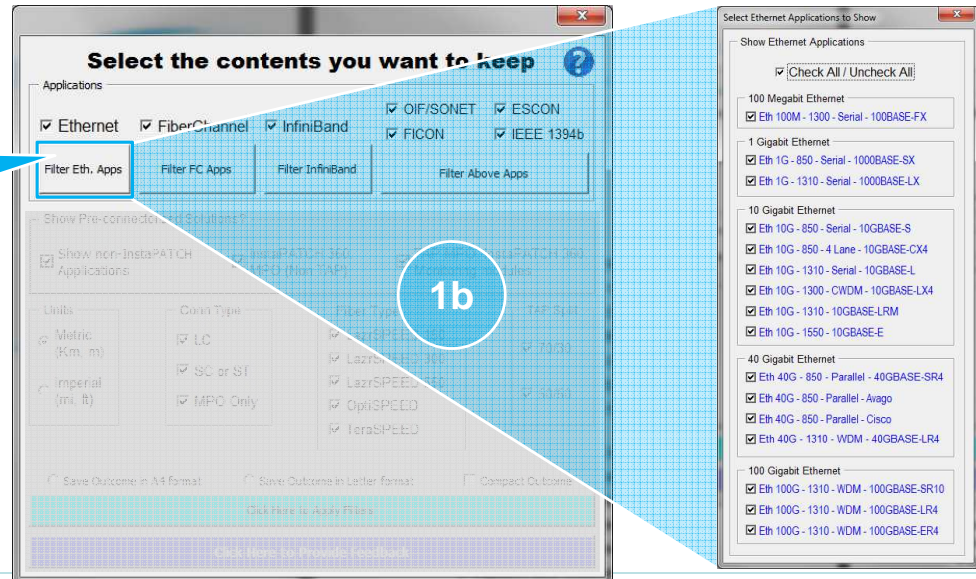

Getting guidance

Users can get guidance

PRIVATE AND CONFIDENTIAL © 2014 CommScope, Inc

1b. Honing the application selection

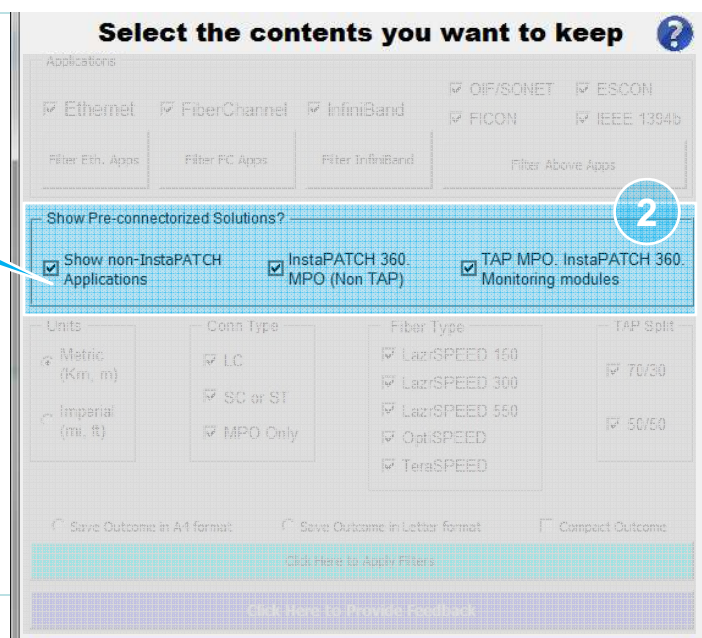

Each set of applications can be filtered to hone the selection

PRIVATE AND CONFIDENTIAL © 2014 CommScope, Inc.

2. Pre-connectorized?

Retain or remove the non-InstaPATCH, InstaPATCH or TAP sections

PRIVATE AND CONFIDENTIAL © 2014 CommScope, Inc.

3. Units, Connectors, Fiber types, Splits

Want to include our part numbers? (we hope so)
You can even highlight them!

Select the contents you want to keep ?

Applications

☒ Ethernet ☒ FiberChannel ☒ InfiniBand ☒ OIF/SONET ☒ ESCON

☒ FICON ☒ IEEE 1394b

Filter Eth. Apps Filter FC Apps Filter InfiniBand Filter Above Apps

Show Pre-connectorized Solutions?

☒ Show non-InstaPATCH Applications ☒ InstaPATCH 360 MPO (Non TAP) ☒ TAP MPO, InstaPATCH 360 Monitoring modules

Units	Conn Type	Fiber Type	TAP Split
<input checked="" type="radio"/> Metric (Km, m)	<input checked="" type="checkbox"/> LC	<input checked="" type="checkbox"/> LazrSPEED 150	<input checked="" type="checkbox"/> 70/30
<input checked="" type="radio"/> Imperial (mi, ft)	<input checked="" type="checkbox"/> SC or ST	<input checked="" type="checkbox"/> LazrSPEED 300	<input checked="" type="checkbox"/> 50/50
	<input checked="" type="checkbox"/> MPO Only	<input checked="" type="checkbox"/> LazrSPEED 550	
		<input checked="" type="checkbox"/> OptiSPEED	
		<input checked="" type="checkbox"/> TeraSPEED	

☐ Save Outcome in A4 format ☐ Save Outcome in Letter format ☐ Compact Outcome

Click Here to Apply Filters

Click Here to Provide Feedback

Confirmation message
(It may take a while in some computers)

Input the file name for the filtered document

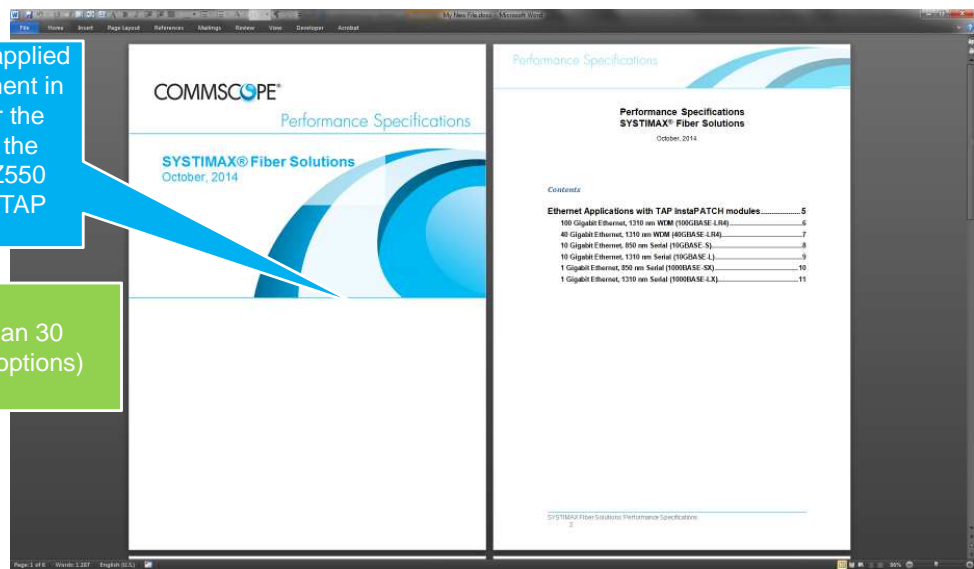

PRIVATE AND CONFIDENTIAL © 2014 CommScope, Inc

Et voilà!

COMMScope®

With the filters we have applied we get a 6 pages document in A4 compact format, for the Ethernet applications, the tables in meters, for LZ550 fiber and 70/30 split in TAP modules

Total time: less than 30 seconds (to select options)

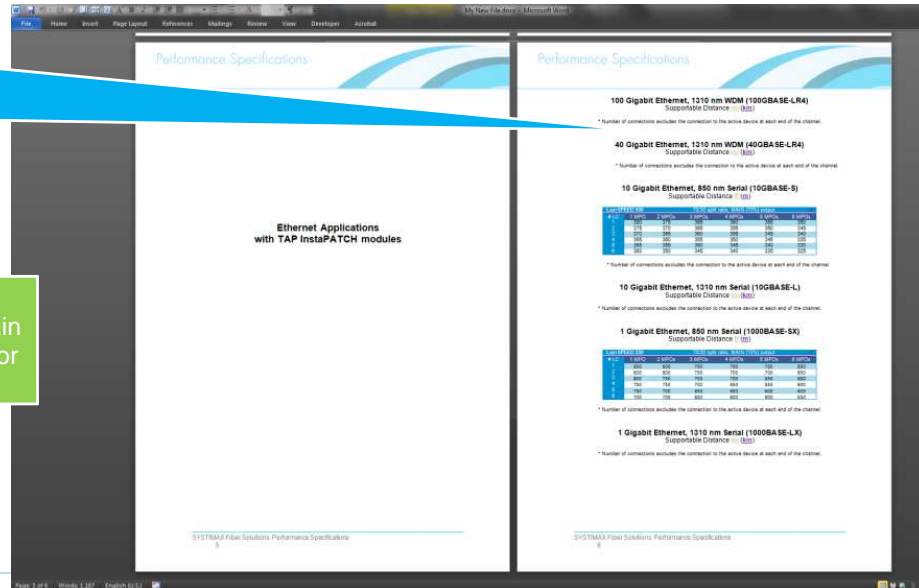

PRIVATE AND CONFIDENTIAL © 2014 CommScope, Inc

Further editing is possible

No tables for an application means that the set of selections provided no results for this application

User can open the Fiber Performance Specs Tool again and make different choices, or further edit the outcome.

Don't forget to submit feedback

We can't improve without feedback...
