

Minitube Sealing System

Sealing Devices for Minitube Installation in Duct Networks

Minitube Sealing Plugs

The minitube sealing system offers a range of sealing plugs for sealing minitubes in duct networks.

Minitubes in duct networks entering subscriber premises and cabinets need to be protected to increase their service life by making sure the minitubes and ducts are clear and free of any water, sediment, or nesting animals.

Features

- Plastic construction with stainless steel parts - corrosion proof
- Fully split for installation on continuous minitubes - no need to cut the minitubes
- Simple to install
- Removable and reusable
- Chemically resistant
- No special tools required on installation
- Protects Minitube from sharp corners at the duct entry
