Exhibition products

-Automation2013 in Mumbai, India

● Digital Video Camera Module
· XCL-S, XCL-C Series

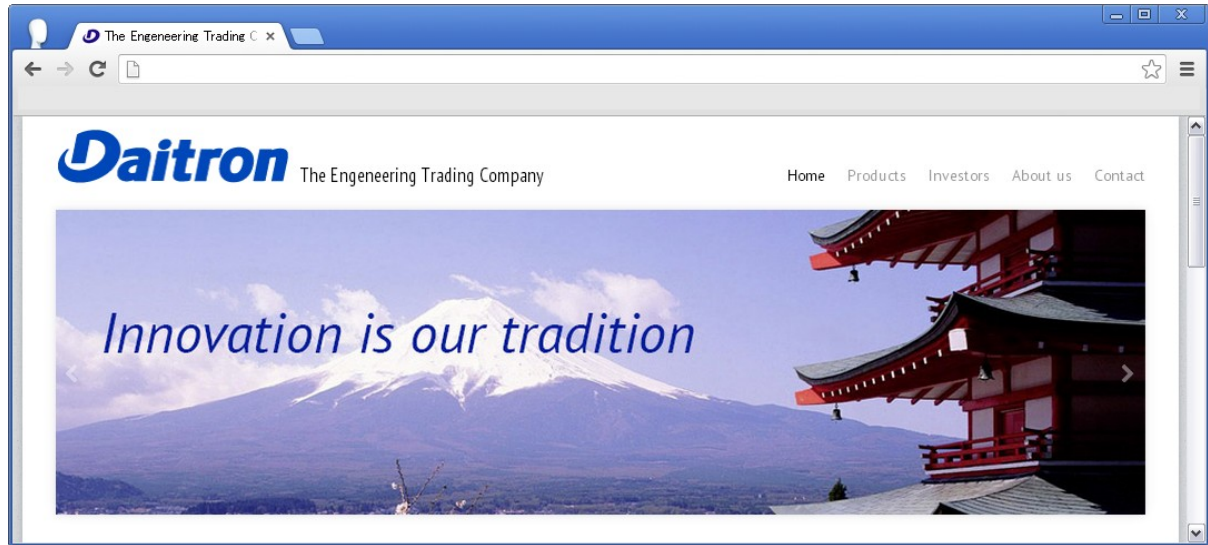

● Shrimp Quality Checker

● Daitron Expertise

● UV LED Lights for UV Curing System

● Daitron Own brand Products
· Switching Power Supply
· Hermetic Connector

● Applications for Vision Products
· Digital Line Scan Camera
· Hi speed image processing system

Our Expertise

YouTube >>> "Daitron Expertise" 

Ultra Low Noise Switching Power Supply daitronpower.com

Daitron offers low noise switching power supplies to meet your needs in order to design noise sensitive applications and instruments. Our power supplies also bring a significant benefit for Medical applications needing low leakage current of 40 to 100uA, all with 4KV reinforced insulation.

Edge Grinder waferedgegrinder.com

Introducing the Edge Grinder series that brings NC-controlled grinding to the chamfering process on silicon and other wafers for the first time in the world. Besides the WBM series, in wide use and still regarded as the industry standard, we will be releasing the new high-precision CVP series of chamfering systems.

Vision System daitronvision.com

Daitron is a well-known premier distributor of machine vision inspection equipment and components. Our product offering encompasses most of any imaging hardware requires for general machine vision applications to specialized security, medical, presentation, or distance learning.

Test & Measurement

In recent years we have been providing a large number of LED testers/probers and processing instruments which were designed and manufactured by our own test & measurement technology, which is contributing to improve our customers' productivity and quality.

Highly Reliable Cable Harness

Daitron Value Added Assembly Group has significant expertise in field over the years and adapted our core strength to large cable harness assemblies, both in length and gauge, for highly complicated applications.

Sales Partner needed!

We are looking for local sales partners to develop and expand new business in industrial automation market in India. Please feel free to contact us if you are interested in.
