## FOR IMMEDIATE RELEASE

### RUGGEDIZED SWITCH ASSEMBLIES

#### CUSTOM DESIGNS MEET STRICT MIL REQUIREMENTS

Custom ruggedized switch assemblies made in a wide range of configurations to meet demanding military environmental specifications including NBC are being introduced by EASTPRINT Incorporated of No. Andover, Massachusetts.

EASTPRINT Custom Ruggedized Switch Assemblies for military applications can include membrane and rotary types in virtually any shape, size, layout, and finish with special actuation forces. Featuring polyester and Kapton® circuits, Paralyne® hard coatings, cast aluminum housings, EMI shielding, and other required materials, sealed switches can be fabricated in thicknesses from 0.030" up, depending upon the application.

Available in sizes from 1" x 1/2" up to 9" x 12", including full size keyboards, EASTPRINT Custom Ruggedized Switch Assemblies can be designed and built to ITAR compliance and meet specific military environmental specifications. Typical applications include ruggedized computers, communications systems, munitions systems, hand-held devices, imaging systems, flexible flight suit communications equipment, and more.

EASTPRINT Custom Ruggedized Switch Assemblies are priced according to configuration and quantity; with prototypes delivered as soon as 1 to 2 weeks. Price quotations are provided upon request.
