

Minneapolis, MN, January 14, 2013—The new PBT FluxClean T solder pallet cleaning system is being introduced by EasyBraid Co. as the latest product offering in PBT's premier cleaning system line. The FluxClean T is fully automated with spray under immersion cleaning technology, spray in air rinsing technology, and closed loop drying with heating up to 230°F (110°C). The PC controlled system allows for adjustment of all cleaning, rinsing, and drying parameters as well as storage of up to 99 programs. It is available in several different sizes to match the customer's required capacity.

EasyBraid Co. is the exclusive North American supplier of PBT Cleaning Systems, as well as PUREX Fume Extraction Systems, ALeader AOI, SEC X-ray Inspection, and is a leading manufacturer of soldering and desoldering devices. To learn more visit the EasyBraid Co. website at [www.easybraidco.com](http://www.easybraidco.com) or call for a demonstration at 800-840-5394. **Please see us at IPC APEX EXPO Booth #1527.**
