

September 19, 2014--Mr. John Webber, National Sales Manager of EasyBraid Co., announced a partnership with Allied Electronics, a Texas-based distributor of industrial automation products, electronic components, and electromechanical products. John recently stated, "This new partnering with Allied significantly benefits customers here in the US, Canada, and Mexico. The products EasyBraid provides enhances Allied's ability to find solutions for their customers' needs with our 400+ products in the PCB assembly industry."

In addition to being a leading manufacturer of soldering and desoldering devices, EasyBraid Co. serves as a North American channel for major worldwide technology companies such as SEC X-Ray, PBT Cleaning Systems, Purex Fume Extraction Systems, and ALeader AOI.
