

Minneapolis, MN, October 4, 2010 -- Easy Braid Co. has introduced a new product line of soldering iron stations. Manufactured from the finest materials, these stations include an LCD display with a built-in power indicator and tip cartridge status; dual switchable output; and an external fuse for ease of service. Mr. John Webber, National Sales Manager of Easy Braid Co. states, "The electronics industry has long awaited a second supplier of Soldering Iron Stations that uses Curie Heat Technology. This unit is safe, reliable, consistent, and competitive which allows us to easily grant a 4-year Warranty."

These products are immediately available from: Economic Packaging, Technimark, Stellar Technologies, Marc Technologies, TC Services, Mark Electronics and Digi-Key.

Easy Braid is a U.S. manufacturer known for the brands of Quick Braid (desoldering wick), One-Step Braid (No Clean and Lead-Free wicks), VPI (BGA inspection), PARM by Easy Braid (Solder Paste Inspection), and PUREX by Easy Braid (Fume Extraction).
