

Advance+ Date: 24 September 2014 Document Number: AN2149

Purpose

This document will step you through the procedure of installing Advance+ software on your computer and the necessary steps of acquiring the software registration code required to complete the installation.

Introduction

The installation of the DR3 TMConfigurator Vxxx requires a registration access code to activate the software in every computer in which it is installed. This Application Note will guide you through the process of obtaining and implementing that access code.

Procedure

You must have an Internet connection during the Advance+ software installation.

You can easily download the DR3 TMConfigurator Vxxx software from the Econolite FTP site, or you can order a CD from your Econolite representative.

1. With Windows Internet Explorer or FileZilla, go to:

ftp://ftp.econolitegroup.com

If you are an authorized user of the Econolite FTP site, enter your Username and Password.

or

Contact one of the Econolite engineers listed below and ask for a Username and Password.

Pablo Portillo at PPortillo@econolite.com

or

Cliff Guice at CGuice@econolite.com

2. Download the DR3 TMConfigurator Vxxx software.

- 12. Above is the last screen that opens after the installation process is complete.
- 13. Now you must send the registration request code to Econolite for the creation of the registration access code activation number:
 - a. Click on **send access code** in the Registration slide and paste the number into an email to one of the people listed below:

Cliff Guice at CGuice@econolite.com

or

Pablo Portillo at PPortillo@econolite.com

- b. A code is generated and a return email is sent with the access code.
- 14. Copy the new access code from the returned email and select paste access code in the registration slide.
- 15. After you enter the access code, the DR3_TMConfigurator starts on your computer.
