

*Electronic Manufacturing &
Engineering Services*

FOR IMMEDIATE RELEASE

FROM: David Faliskie, President / Chief Operating Officer

DATE: June 10, 2014

SUBJECT: EIT Salem, New Hampshire Facility Open House

EIT, LLC, a Sterling, Virginia based electronic manufacturing services (EMS) provider will host an Open House at their newest facility in Salem, New Hampshire on Thursday June 19, 2014. The Salem facility represents EIT's fifth facility.

EIT's new 30,000 ft² facility is located at 19 Keewaydin Drive, Suite 3, Salem, NH 03079. The facility was completely renovated and features ESD flooring throughout the facility, new energy efficient lighting, new and upgraded electronics manufacturing equipment including Mydata/Universal SMT lines, and a new Aqua Storm 200 wash system.

The EIT Salem facility supports both prototype and production builds for medical, industrial, telecommunications, aerospace and defense related customers. The Quality Management System in Salem recently achieved ISO 13485 (Medical) Registration. EIT's Salem facility also holds quality registrations for ISO 9001 & AS9100 (Aerospace) and is ITAR registered.

To join EIT at the Open House on June 19 or to arrange a visit to discuss your electronic manufacturing needs, please contact Shawn Brady at shawn.brady@eit.com or 978-828-8348.

Founded in 1977, EIT provides contract electronic manufacturing services (EMS), along with engineering and support services for its customers. EIT's capabilities and resources include mechanical assembly, engineering design, machining & sheet metal and cabling/wire harness fabrication. EIT's Instrument Markets group designs, builds, sells and services a line of UV radiometers and process control solutions that are sold worldwide.

For more information please contact sales@eit.com or 703-478-0700.
