

eBlocker®

Quick Start Guide

(Wenden für deutsch)

SWITCH ON PRIVACY.

Thank you very much for purchasing
your eBlocker. Your privacy belongs
to YOU again
– not to the Internet.

With this guide you can set up your
eBlocker in no time.

Safety Notes

Please mind the following safety notes before using your eBlocker:

- Your eBlocker does not have a power switch. To switch off or reboot your eBlocker please go to „Settings>System>Reboot and Shutdown“ or disconnect the power supply.
- Please protect your eBlocker from moisture, dust, liquids, and vapors.
- Please do not block the air vents of your eBlocker.
- Never disconnect the power supply or network connection during an update. This can damage the eBlocker irreparably.
- In case of wall mounting your eBlocker, please ensure that no wires or piping can be damaged behind the mounting surface.

Package Contents

Device Description

Technical Specifications

- | | |
|-------------------------------------|-----------------------------|
| • 1 x 10/100/1000 LAN RJ45 | • 1 x HDMI (not in use) |
| • 1 x Power supply 5V ($\geq 2A$) | • Power consumption: <10W |

| • 2 x USB 2.0 (for extensions) | • Weight: ca. 150g (5.3oz) |

Installation

1. Connection

Start by connecting your eBlocker with the orange LAN cable to your router or switch. **Then** connect the enclosed power supply to power up your eBlocker.

2. Configuration

Please wait for 5 minutes to let eBlocker configure itself automatically. Start a web browser and go to <http://setup.eblocker.com>

3. Start

The eBlocker icon appears at the top right corner in the browser window. Click on the icon to open the Controlbar and start the Activation Wizard.

Activation

The Activation Wizard requires the **serial number** of your eBlocker, your **license key** and a valid **email address**.

Type plate

License key card

Please find the **serial number** on the type plate at the bottom of the device. It has the format “SNXXXXXXXX”.

Please find the **license key** on the license card, which is included with the device.

Please use a valid email address for free support.

Main Features

eBlocker Icon

eBlocker's activity is shown on each site by the eBlocker activity icon. Clicking on the icon gives you access to the controlbar.

Whitelist

Individually disable eBlocker's activity on sites you consider safe.

Trackers

See which trackers are eBlocked on the current page.

Ads (Ad-Blocker)

See which ads are eBlocked on the current page.

Anon (IP-Anonymization)

For extra anonymity, enable IP-Anonymization to hide your real IP-address.

Device Cloaking

Pretend you are using a different device to increase your privacy even more.

Pause

Deactivates the eBlocker on the current device for 5 minutes.

Messages

The icon appears only if there are new messages or system notifications.

Settings

Control advanced setup options like SSL-support or network configurations.
