

Cost-effective 3ATI display offers low power draw and compact LRU

The KDM340S 3ATI display features a high-resolution 480x480 AMLCD and life-of-the-aircraft LED backlight designed for standard avionics ambient-lighting applications. Display module specifications are provided on the back of this sheet. Advantages include:

- Cost effectiveness
- Very high reliability

- Very low power consumption for increased LRU power budget
- Life-of-the-aircraft, solid-state LED light source with low cost of ownership
- LED array with built-in redundancy
- Stable luminance maintained in closed-loop control over unit life and a broad range of operating temperatures
- Backlight with high dimming range built in
- Backlight control with no software
- CMOS AMLCD drive
- Virtually instant image when powered on and fast restart
- Vivid primary colors
- Full night-vision compliance optional (NVIS Class B)
- Saturated red in NVIS Class B
- Low weight of only 200 grams
- Low depth of only 38 mm for additional LRU features
- Standard and custom viewing-angle options
- AMLCD heater optional for cold-weather operation

In addition to the KDM340S 3ATI module above, Esterline offers other KDM products in a range of standard sizes: 4x5, 6.25x6.25, 6x8, and 8x13 inches.
