

Esterline Control & Communication Systems

The leading international provider of HMI technologies, safety-critical software, and audio and data solutions for high-reliability applications in aerospace, defense, and other specialized industries

Esterline
Control & Communication Systems

Esterline Control & Communication Systems

- Six trusted brands with proven solutions
- Best-in-class suppliers with global reach and technological synergies
- An enduring commitment to continuous improvement and R&D investment

AVISTA

- Safety-critical systems and software engineering services
- AS-9100 and CMMI appraised
- Avionics (DO-178B/C and DO-254): fixed wing, rotary wing, UAVs
- Medical electronics (FDA 510(k) and IEC 62034)
- Maritime and land-vehicle solutions
- Electronic hardware validation
- Automated test stations
- Software and hardware certification services

Korry

- Engineered HMI components and subsystems
- Integrated cockpit controls
- Industry-leading switches and indicators
- High-performance displays
- BVR data collectors and concentrators
- *Nightshield* night-vision filters

Codis

- Rugged touch-screen displays, consoles, and computers for defense applications
- Air traffic control (ATC) displays
- Networked visualization solutions

Mason

- Flight-control HMI solutions: grips, cyclics, throttles, pedal assemblies
- HaWC unmanned-systems controllers
- Cursor-control devices
- Janco rotary switches, potentiometers, and optical encoders

Palomar

- Secure airborne/shipborne/ground-based communications systems
- Voice/video/data switching
- Open and scalable system architecture with software-defined functions
- TEMPEST qualified

Racal Acoustics

- Communication systems and hearing protection
- In-the-ear and lightweight headsets, handsets, and telephones
- Medium to high-noise binaural headsets
- Advanced press-to-talk control units
