

Korry® parts for Boeing 787 FDCP provisioning

A complete inventory from the original Tier 1 supplier:

- Control panel assemblies
- Annunciators
- Switches
- Knobs

Korry line-replaceable components for 787 flight-deck control panel (FDCP) units

As a Tier 1 787 supplier, Esterline offers a complete line of its Korry components to service all 25 FDCP units used on Boeing 787 models. Line-replaceable components include control panel assemblies and:

- 25 part numbers of 1-inch lighted push-button switches (usage: 67 per aircraft).
- Four part numbers of 5/8-inch lighted push-button switches (usage: eight per aircraft).
- Ten part numbers of annunciators (usage: 16 per aircraft).
- Ten part numbers of knobs (usage: 70 per aircraft).

All part numbers are unique to the 787 and are identified in the tables included here, along with recommended provisioning quantities per shipset. In addition, we provide lower-level components for shop maintenance. Please contact us for details.
