

Wall Mount Panels

Key Details:

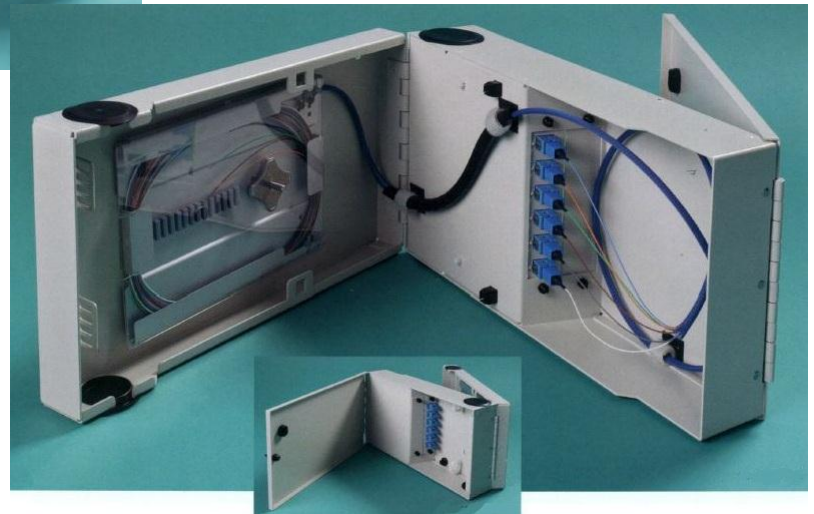

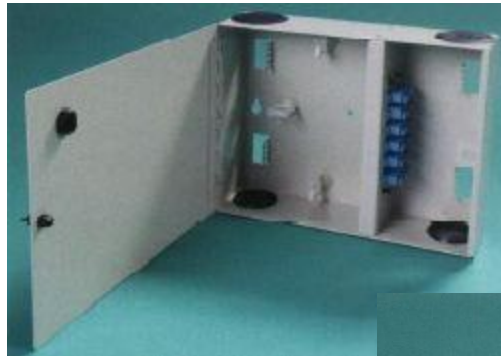

- 16 Gauge, heavy duty construction
- Up to 48 fiber for patch and splice
- Durable powder coat finish
- Available in black or beige
- All standard fiber connectors are available

Several sizes (WxHxD):

- 13" x 12" x 3.3"
- 12" x 7" x 3.6" (fold out model shown at right)
- 11.5" x 8.5" x 3.25"
- 14" x 12" x 3.25" (2 door model, upper right)

Our wall-mounted cabinets offer a compact and secure option for splicing and termination of your next fiber project. Use any of our standard adapter plates to customize this patch and splice solution.

Choose a single front door or double doors for added security. For a unique solution for limiting splice access, consider our fold-out unit with up to 24 fibers for patch and splice.

Features and Options

- Double door version for added security
- Includes kit for fiber management - tie wraps, fiber management clips, labels and mounting screws
- Optional key lock on patching side
- Accepts standard 6-pack (simplex or duplex) adapter panels
- Available in splice, terminate and combination versions
- Fold-out version allows easy access without needing much wall space
