

F1-30660M4BT

FEATURES

- Designed for 50/125 OM4 Bare or 900um Buffered Fiber
- No Epoxy, No Polish Termination
- No Special Tools Required
- Terminates in Under 2 Minutes

APPLICATIONS

- Local Area Network
- Laboratory
- Restoration

FIS SC Bobtail™ connectors provide the installer with the ability to make an epoxy-secured connection in less than two minutes. As always, your satisfaction is guaranteed or return the connectors to FIS for a complete refund. The open epoxy canal allows application of Crazy Glue, Super Glue or any Cyanoacrylate adhesives.

SPECIFICATIONS

Fiber Hole Diameter	127µm +1/-0µm
Concentricity	< 1.5µm
Operating Temperature	-40° C to +65° C (IL Delta <.5dB)
Insertion Loss	.4 dB Typical
Cable Retention (900um Buffer)	> 1 lbs

MATERIALS

Ferrule	Zirconia Ceramic
Outer Housing	ABS
Inner Body	Valox
Boot	Thermoplastic Rubber
