Subject: Very Happy!

Hi, John
I am very happy with the equipment and expertise of Wil Mussleman. The time went very well once we had the new brain here to work with.

I will be calling you next week. We have decided to use SELL BY dating instead of expiration dates. I will need a few things with respect to parts to order once you get situated back to your office.

Thanks for all that you have done. InLine sure was a wonderful choice for us to get involved in water bottling. We have had some unfortunate happenings with our water treatment company as expected!

More later when I give you a call.

Take care, Julia
