

Fact Sheet

Fujitsu Bridge Services

Award winning SAP-to-Microsoft integration services

Fujitsu Bridge Services utilize Duet® Enterprise and the Netweaver® Gateway to bring SAP® business data together with Microsoft® Sharepoint® and the Office Productivity Suite

Executive summary

Many of today's companies wish to improve accessibility to the ERP data residing within their SAP systems. Often, this leads to costly customizations of SAP screens, workflows and processes to support the urgent business needs of a subset of knowledge workers.

Dissatisfaction with the end product of these customizations and the difficulty of making further improvements in custom front-end solutions has now reached a critical mass. As a result, many IT organizations are now rethinking the effectiveness of these traditional front-end customizations; instead, they are looking for a comprehensive SAP to Microsoft integration strategy designed to surface critical SAP ERP data for their users through a supportable, governed enterprise collaboration framework like Microsoft SharePoint and the Microsoft Office productivity suite.

How we can help

Fujitsu provides award winning SAP to Microsoft integration services utilizing the Duet Enterprise framework, the Netweaver Gateway and custom integration services that makes it possible to replace custom solutions with vendor supported solutions.

There are many choices for surfacing SAP ERP business data to the Microsoft SharePoint platform. Evaluating which of these integration options can become overwhelming. The Fujitsu Bridge architecture team has the award-winning real-world experience, technical staff

and streamlined processes to help you realize greater value from your SAP ERP system by delivering data from SAP into SharePoint screens or implementing a comprehensive SAP to SharePoint front-end strategy.

Benefits

With a global presence, our Fujitsu Bridge architecture team can help your business realize secure, direct access to SAP ERP data and processes through Microsoft SharePoint and the Microsoft Office productivity suite. Key benefits include:

- Access to SAP data to your total information workforce through SharePoint
- A scalable and secure integration framework supported by both Microsoft and SAP

Industry recognition

As the winner of the SAP-Microsoft Unite Partner Connection 2012 Partner Innovation Award for our custom sales force automation implementation solution for Omnicell, Inc., Fujitsu is recognized by the industry as the premier integration service provider for Duet Enterprise and custom SAP to Microsoft integration services.

The Opportunity

- Expose data from any SAP module to Microsoft SharePoint
- Integrate SAP CRM contact data and tasks with Microsoft Outlook®
- Allow Microsoft SharePoint users to approve SAP transactions
- Replace the SAP user experience with a SharePoint user interface
- Decrease SAP named user pricing for casual SAP users
- Deploy a secure and scalable architecture for ongoing integration

Duet Enterprise | for Microsoft® SharePoint® and SAP®

Our approach

Fujitsu has partnerships with both SAP and Microsoft that have produced a wealth of expertise in implementing integrated solutions based on Duet Enterprise, SAP ERP and Netweaver Gateway, Microsoft SharePoint and the Microsoft Office productivity suite. With established frameworks, time-tested methodologies and award-winning real-world experience derived from leading-edge implementations, Fujitsu is the ideal choice for companies interested in integrating SAP business data to the Microsoft platform.

What we offer

The Fujitsu Bridge Services offering consists of the following integration services:

Duet Enterprise Bridge Service

The Duet Enterprise Bridge Service is the Fujitsu base Bridge Services offering and encompasses the implementation and configuration of the out-of-the-box functionality available within the Duet Enterprise integration framework. This service is the foundational component to support the business integration needs of our clients.

Duet Enterprise Extended Bridge Service

The Duet Enterprise Extended Bridge Service takes our base Duet Enterprise Bridge Service to the next level. Utilizing the Duet Enterprise framework, our services allow you to access virtually any SAP ERP transaction, report or workflow from the Microsoft SharePoint and the Office productivity suite. Fujitsu offers pre-packaged extended bridge solutions for HR, invoice and procurement approval processes.

Fujitsu Flexible Bridge Service

The Fujitsu Flexible Bridge Service is a comprehensive integration offering that delivers custom SAP to Microsoft integration solutions built upon the SAP Netweaver Gateway, Microsoft Business Connectivity Services framework and the .NET architecture.

Partner Bridge Service

The Fujitsu Partner Bridge Service is a complementary offering that allows Fujitsu to deliver pre-built integration solutions and frameworks from our partner network to our clients.
