# **DESCRIPTION**

The GB715 series are pneumatic-hydraulic tools designed specifically for the efficient installation of a wide range of blind rivets. They can be operated in any position with one hand. They have a rated pull load of 1,400 pounds (6.23 kN) with 90 psi (6.2 bar) air pressure at the air inlet.

The GB715SH and GB715SR riveters offer a unique "split" system providing the operator with an ergonomic tool with reduced hand held weight, as shown below.

The GB715 series riveters operate on 90 to 100 psi (6.2-6.9 bar) of air pressure, providing the maximum efficiency. At 90 psi. (6.2 bar) of air pressure, the GB715 series does not exceed 81.5 dB(A) and consumes 3 cfm at 20 cycles a minute.

The air inlet is provided with 1/4-18 female pipe thread to accept the users air hose fitting.
