

WAGO INTERFACE ADAPTERS, 857 SERIES

For System Wiring

WAGO's Interface Adapters quickly connect the WAGO-I/O-SYSTEM to 857 Series Relay/Optocoupler Modules and JUMPFLEX® Signal Conditioners via pre-assembled WAGO 706 Series Interface Cables.

- Simple plug-in connection via jumper slot
- Combines 8 channels within a 857 Series module assembly
- Integrated test ports for each channel

WAGO-I/O-SYSTEM 750		WAGO Interface Cables		WAGO Interface Adapters			
	Item Number	I/O Modules		Item Number		Item Number	Connection Example
DI	750-1400	16 DI 24 VDC 3.0 ms		706-7753/304-xxx		857-982 with 14-pole pluggable connector per DIN 41651, high-side switching output	
	750-1402	16 DI 24 VDC 3.0 ms, low-side switching		706-7753/306-xxx		857-986 with D-sub male connector, high-side switching input	
DO	750-1500	16 DO 24 VDC 0.5 A		706-7753/304-xxx		857-981 with 14-pole pluggable connector per DIN 41651, high-side switching input	
				706-7753/306-xxx		857-982 with 14-pole pluggable connector per DIN 41651, high-side switching output	
DI/DO	750-1502	8 DI 8 DO 24 VDC 0.5 A		706-7753/304-xxx		857-981 with 14-pole pluggable connector per DIN 41651, high-side switching input	
				706-7753/306-xxx		857-986 with D-sub male connector, high-side switching input	
				706-753/301-xxx		857-980 with 16-pole pluggable connector per DIN 41651, suitable for JUMPFLEX® Signal Conditioners	
				706-753/300-xxx		857-981 with 14-pole pluggable connector per DIN 41651, high-side switching input	
						857-982 with 14-pole pluggable connector per DIN 41651, high-side switching output	

WAGO's Interface Cables are available in 1 m (-100), 2 m (-200) and 3 m (-300) lengths; they are also available with free ends. Additional cable types and lengths available upon request.

WE INNOVATE!
