Metal Mesh Glove Models

Hand Glove
SSM-30 - \$89.95

2" Cuff
SSM-32 - \$129.95

7 1/2" Cuff
SSM-37 - \$199.95

The unique construction of these gloves eliminates gaps that can trap soil and feed the growth of bacteria. This dramatically reduces the risk of contamination. The state-of-the-art design also results in stronger, smoother and hermitically sealed ring connections that have no weak spots.

Specifications: Ambidextrous - Gloves fit either hand. All-Metal Cuffs won't break down or fall apart like fabric or plastic cuffs when exposed to water, chemicals and soil. Made from 100% High-Grade Stainless Steel Mesh with hermetically sealed Micro Plasma Welds. Self-adjusting tensioning system allows for easy fit without straps or buckles.

- **Ergonomically Designed for Optimal Fit and Comfort**
- **Glove fingers and body are contoured to fit the shape of the hand**
- **Easy to Clean**
- **Serial number tags for re-issuance**

Sizes: XXS, XS, S, M, L, XL, XXL
