

Flexible Graphite Thermal Solutions

Passive Thermal Management for Lighting Applications

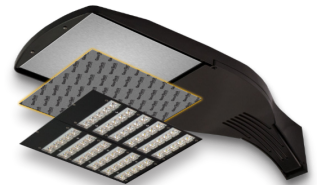

Custom
Lighting Engines

COB High Power
Light Arrays

LED
Light Pucks

Indoor and Outdoor
Light Engine Boards

LIBERATE YOURSELF FROM GREASE AND BULKY HEAT SINKS

Dispense-Free Manufacturing

- “Peel and stick” form factor
- Easily integrates into any size production line

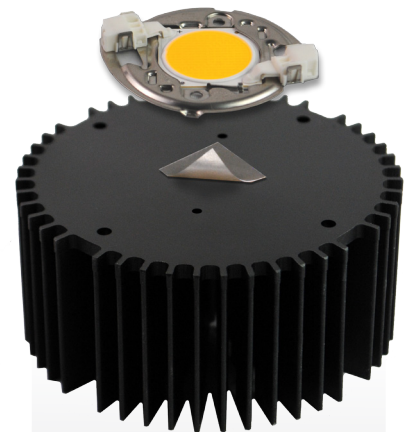

Reliable, Consistent Thermal Performance

- Unaffected by extreme temperatures
- Unlimited performance lifetime

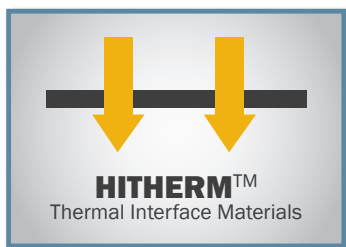

Maintain Clear Optics

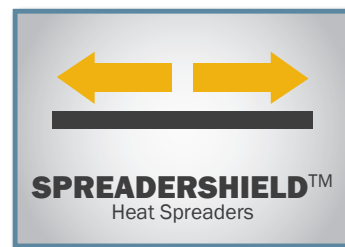

- Eliminate gases that containment lenses
- NASA approved for minimal outgassing

*Thermal interface materials
are critical to system design*

eGRAF® **HITHERM™** thermal interface materials (TIMs) are a pad-based grease alternative for long life, mission critical applications including extreme temperature cycles.

eGRAF® **SPREADERSHIELD™** heat spreaders provide a conformable, lightweight, very thermally conductive solution that enable low profile luminaire designs and high performance power supplies.

NEW!

We now offer pre-cut HITHERM™ TIM parts for chip on board devices - making evaluating HITHERM™ as easy as click, peel, stick. Order today from your computer or mobile device at led.graftech.com.

HITHERM™ TIMs for COBs

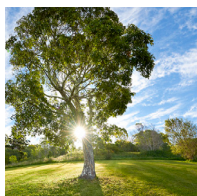

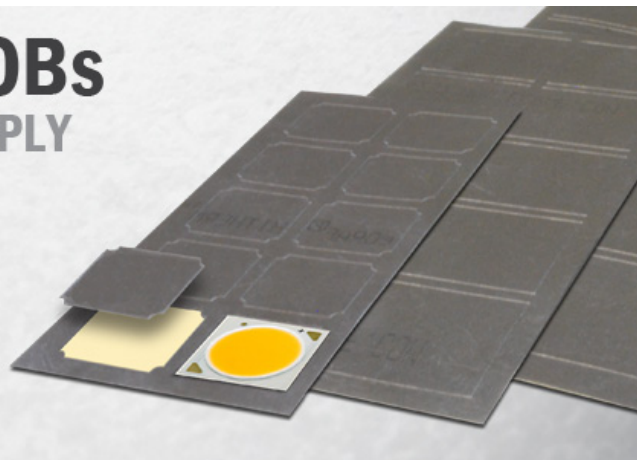

PRODUCTION READY, EASY TO APPLY
PEEL & STICK DESIGN

Parts available for Cree®, Nichia®, Citizen®,
Lumileds, and Bridgelux® COBs - plus many more**

** Cree is a registered trademark of Cree, Inc. NICHIA is a registered trademark of Nichia Corporation.
Citizen is a registered trademark of Citizen Electronics Co., Ltd. Bridgelux is a registered trademark of Bridgelux, Inc.

Environmentally Friendly

- RoHS, REACH compliant
 - Contains no hazardous materials
- UL94V-0 flammability rated
 - Non-flammable
- Chemically inert to almost any substance
- Easy disposal of waste
- Contains no hazardous materials
