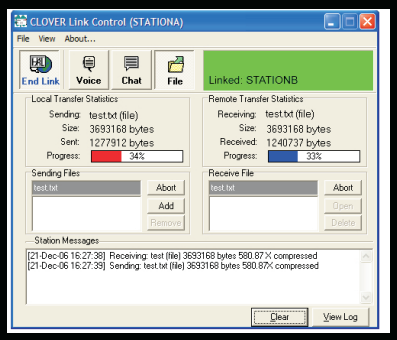
CLOVERMAIL

Radio Messaging Software

- Wireless Email, Data, and FAX
- Use email client software
- HF, VHF, UHF



FEATURES

COMMUNICATION OVER ANY DISTANCE

The CLOVER Mail system works with standard inexpensive HF, VHF, and UHF transceivers. These radio frequencies cover all distances and terrains without telephone or IT infrastructures.

NETWORK MANAGEMENT

Radio network management is made easy through password protected configuration screens. CLOVER Mail runs unattended and hidden transferring mail wirelessly without user intervention.

LOWER COST OF OWNERSHIP

Private networks are in-house eliminating costly airtime charges and fees and users utilize simple email software reducing training expenses.

REDUCED CHANNEL OCCUPANCY

Channel use time is reduced with advanced compression, channel selection, scheduling, and collision avoidance features. CLOVER Mail completely eliminates TCP/IP overhead and latency issues.
