GLOBAL INNOVATION CENTER

# EXPERIENCE AREA

A highlight of the Global Innovation Center is the experience area. Guests are introduced to the Harris technologies that connect, inform and protect.

Surround yourself in 4,400 square feet of exhibits, including nine digital, interactive experiences. Explore the mission-critical innovations relied upon from ocean to orbit and everywhere in between.

TOURS ARE SELF-GUIDED OR FACILITATED BY SUBJECT MATTER EXPERTS

1

### "WE ARE HARRIS" WELCOME VIDEO

Gear up with a cinematic video in which Harris employees welcome you with personal stories and experiences with customers, co-workers and the technology and services they deliver every day.

2

### HARRIS TIMELINE

Uncover the key sequence of inspiring people and events shaping Harris' history of innovation. [1895 - present]

3

### CONNECT

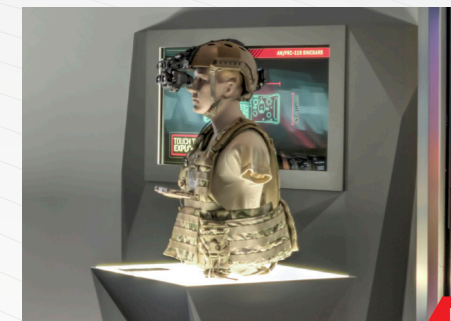

Examine how Harris is modernizing global Air Traffic Management (ATM) systems to meet the demands of the next generation of air travel. Or learn how we enable life-saving operational data, voice and video to military around the globe.

4

### INFORM

Launch into an interactive experience illustrating how Harris solutions discover, analyze and transform data to provide actionable intelligence and insights for a better world. Learn how Harris has made space missions more accessible, more affordable and with faster turnaround through use of small satellites and hosted payloads.

5

### PROTECT

Your inside glimpse at the high-level connectivity and critical capabilities safeguarding the modern warfighter. Includes individual soldier system, evolution of radios and high impact video.

6

### SOLUTIONS MURAL

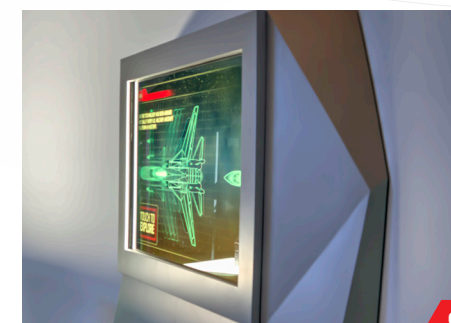

See how Harris technology is used in multiple locations and situations with this 15-screen animated wall. The 35 interactive hotspots encourage guests to learn more.

7

### MISSION SIMULATION

This ultra-wide screen takes you through a hostage rescue simulation and highlights how Harris technology underpins the mission.

8

### FIXED WING AVIONICS

Explore interactive touchscreen displays that describe a cross-section of Harris avionics infrastructure, carriage and release systems and stealth communications.

9

### WALL OF HEROES

Engage with this fully interactive display featuring three individual heroes who share mission-critical situations where Harris technology played a major role. Heroes include a firefighter, a U.K. Marine, and a Navy pilot.
