

Harris technology helps extract information from geospatial data, enabling more effective decision making

HARRIS CORPORATION IN INDIA

SERVING THE INDIAN MARKET FOR MORE THAN 15 YEARS

SOLUTIONS FOR INDIA

Defence

Public Safety

Air Traffic Management

Geospatial Services

Weather and Environmental Sensing

Engineering Services

Harris Corporation is a leading technology innovator, solving customers' toughest mission-critical challenges by providing solutions that connect, inform and protect. Harris supports government and commercial customers in more than 100 countries and has approximately \$6 billion in annual revenue. The company is organized into three business segments: Communication Systems, Space and Intelligence Systems and Electronic Systems.

Harris has provided advanced technology solutions to the Indian market for more than 15 years, and has an established presence in New Delhi.

In-country operations include sales, engineering and testing, and engineering

services for all business areas. Harris has relationships with local companies to develop solutions that are strongly aligned with India's current and future needs.

ADVANCED HARRIS SOLUTIONS

DEFENCE

Harris is one of the leading defence contractors and OEMs in the field of night vision devices, communication equipment, radars, sonars, sensors and Electronic Warfare (EW) equipment for homeland and border security. Harris offers products and systems that provide the critical edge in today's battlefield. The company has a proven commitment to helping ensure India's security.

- Tactical Systems, Radios, Night Vision Goggles
- Undersea Systems, Radars, Electronic Warfare

HARRIS CUSTOMERS IN INDIA

DEFENCE: Indian Armed Forces

PUBLIC SAFETY: Mumbai Police Force

AVIATION: Airports Authority of India

PUBLIC SAFETY

Harris is a leading provider of trusted communications solutions for those who defend, protect and serve. Harris provides advanced IP voice and data networks; secure, next-generation public safety-grade LTE solutions and applications for voice, video and data; and industry leading multiband, multimode radios, including P25 radios.

- Radios, Dispatch Systems/Consoles
- Network Switching and Management
- Station and Site Equipment

GEOSPATIAL SERVICES

From sensors and software to actionable information, Harris helps users make informed decisions. Advanced ENVI analytics help extract meaningful information from all kinds of data. The Harris Geiger-mode LiDAR sensor collects high-resolution data faster and more cost-effectively than traditional sensors. And, the IntelliEarth™ Marketplace provides access to the world's premier satellite, aerial, elevation, vector and LiDAR data as well as software tools.

- Nationwide Mapping (LiDAR)
- Infrastructure, Utilities Planning, Flood Mapping, Forestry Analytics
- Urban Modeling and Smart Cities Planning
- Custom Geospatial Software Solutions

AIR TRAFFIC MANAGEMENT

From large-scale systems integration to customized air traffic management communications and situational awareness solutions, Harris provides highly reliable products, systems and managed communications services worldwide.

- Managed Telecommunications Services
- Voice Communication Systems and Switches
- System Wide Information Management
- Airport and Airline Operations Management

WEATHER AND ENVIRONMENTAL SENSING

Harris designs advanced technologies that capture, analyze and visualize data from every altitude to improve understanding and prediction of weather and climate, and enhance Earth observation. Harris electro-optical sensors and payloads are on multiple next-generation weather systems.

- Spaceborne Weather and Climate Sensors and Payloads
- Ground Processing and Distribution
- Ground-based Greenhouse Gas Monitoring Systems
- Weather Data Analytics

ENGINEERING SERVICES

Harris has strategic partnerships in the areas of software development and testing, which support existing products and new technology development.
