Title: Female Interface Modification In The Filter D-Sub Adapters

Dear Customer,

We would like to announce a minor change in our Filter D-Sub adapters. This is a cosmetic modification only and will not affect any functionality, performance or dimensions of the actual product.

Modification Details:

White female interface will be replaced with a new, grey female interface as shown below.

Current white female interface

New grey female interface

The switch to the new adapters using the new grey female interface will start when both, actual internal stock of adapters, and stock of the old D-Sub white solder cup interfaces are exhausted.

Please don't hesitate to contact our technical support if you have any questions.
