2. Reason for termination:

Our HARTING 130 kN Crimp Tools **09 99 000 0385** and **09 99 000 0815** and all related accessories (crimp dies, die holders) will be phased out in April 2015.

They are going to be replaced by our new range of HARTING 60 kN and 120kN crimp tools.

The new range of HARTING Crimp Tools offers the possibility to choose the best fitting crimp tool solution depending on the customer's requirements (e.g. the 60 kN crimp tools for smaller wire gauges from 10 – 70 mm² and the 120 kN crimp tools for bigger wire gauges from 10 – 240 mm²).

Due to the possibility to choose between the 60 kN crimp tools and the 120 kN crimp tools, the customer is able to select the best fitting crimp tool for the respective crimp situation and will achieve optimised crimp results.
