

MPL Pressure & Vacuum Switches

PRODUCT IMAGE

LINE DRAWING

NO IMAGE
AVAILABLE

BENEFITS

- pressure, vacuum and differential switching
- long mechanical life
- UL & CSA approved
- typically used for low current applications
- robust
- various diaphragms available

SPECIFICATIONS

standards/approvals	UL and CSA approved, see website link below for further information
degree of protection	n/a
connection method	various spouts and NPT threads
electrical rating	most commonly 10-20mA 5-24V DC
contact configuration	SPDT, SPST N/O, SPST N/C
pressure range	0.25mbar to 1370mbar
operating temperature	-40°C to +85°C
body material	glass filled polyester or aluminium-zinc alloy
weight	0.01Kg to 0.06Kg
additional information	visit www.pressureswitch.com for further information
