## How to Export HiDDNS Device List

We recommend users of HiDDNS web portal (<u>www.hik-online.com</u>) to export a device list before Jan-5, 2017(Beijing Time, +UTC 8). This exported device list contains the HiDDNS accessing info of all their registered devices for future reference.

Step 1. Visit <u>www.hik-online.com</u> and login.

**Step 4.** In the exported file there's a list of devices and their HiDDNS access info, and the 'Device Name' column indicates the registered HiDDNS domain name for each device.

For example, in the following image the device name is 'hiknvrtest723', so the user can visit it at <u>www.hik-online.com/hiknvrtest723</u>.
